

§ 173. Authorization of appropriations

There are authorized to be appropriated such amounts as may be necessary to carry out the provisions of sections 171 to 173 of this title. Any amounts so appropriated, and any funds received by the Secretary under said sections, shall remain permanently available for the purposes of said sections without regard to the provisions of any other laws relating to the availability and disposition of appropriated funds and the disposition of funds collected by officers or agencies of the United States.

(Mar. 5, 1942, ch. 140, §3, 56 Stat. 128.)

§ 174. Omitted

CODIFICATION

Section was from the Department of Agriculture Appropriation Act, 1946, act July 5, 1945, ch. 271, title I, 59 Stat. 423, provided for the disposition of proceeds from the sale of guayule and other rubber-bearing plants, and was not repeated in subsequent appropriation acts. Similar provisions were contained in prior appropriation acts as follows:

May 5, 1945, ch. 109, 59 Stat. 152.
 June 28, 1944, ch. 296, 58 Stat. 447.
 July 12, 1943, ch. 215, 57 Stat. 415.
 July 2, 1942, ch. 476, title I, 56 Stat. 597.
 Apr. 28, 1942, ch. 247, title III, 56 Stat. 240.

§ 175. Lease or sublease of unsuitable lands; disposal of water supply

Subject to conditions prescribed by the Secretary of Agriculture, any part of the land acquired by lease, deed, or other agreement pursuant to sections 171 to 173 of this title, which is not required or suitable for the purposes of said sections may be leased or subleased at a reasonable rental during the period the United States is entitled to possession thereof; and any surplus water supplies controlled by the United States on such land may be disposed of at reasonable rates.

(July 2, 1942, ch. 476, title I, 56 Stat. 597.)

§ 176. Sale of guayule shrub to Reconstruction Finance Corporation

Guayule shrub may be sold to the Reconstruction Finance Corporation at a price reflecting the net realization from the sale of the rubber recovered from such shrub in mills operated by said Corporation after deducting the cost of milling and amortization of the cost of mills constructed for the purpose by said Corporation.

(June 30, 1945, ch. 215, §1, 59 Stat. 310; July 5, 1945, ch. 271, title I, 59 Stat. 423.)

TRANSFER OF FUNCTIONS

Rubber Reserve Company dissolved and functions transferred to Reconstruction Finance Corporation by Joint Res. June 30, 1945, eff. July 1, 1945.

ABOLITION OF RECONSTRUCTION FINANCE CORPORATION

Section 6(a) of 1957 Reorg. Plan No. 1, eff. June 30, 1957, 22 F.R. 4633, 71 Stat. 649, set out as a note under section 601 of Title 15, Commerce and Trade, abolished Reconstruction Finance Corporation.

SUBCHAPTER II—CRITICAL AGRICULTURAL MATERIALS

§ 178. Congressional findings and declaration of policy

(a)(1) Congress recognizes that natural latex rubber is a commodity of vital importance to the economy, the defense, and the general well-being of the Nation. The United States is totally dependent upon foreign sources for its supplies of natural (Hevea) latex, which total about one million tons per year. Synthetic rubber, manufactured from petroleum feedstocks, cannot be substituted for natural rubber.

(2) Congress further recognizes that certain plant species of the genus *Parthenium* (*Guayule*), native to Texas and the Republic of Mexico, as well as other plants, are known to contain commercial quantities of extractable rubber. During World War II, through research carried out by the Secretary of Agriculture in the Emergency Rubber Project, the United States demonstrated that *Parthenium* latex is a promising and realistic substitute for Hevea latex.

(3) Congress further recognizes that additional research and development are needed, especially into methods for increasing latex yields, before commercialization of native *Parthenium* latex or other hydrocarbon-containing plants by private industry is feasible.

(4) Congress further recognizes that the development of a domestic natural rubber industry, based on *Parthenium* and other hydrocarbon-containing plants, would not only relieve the Nation's dependence upon foreign latex sources but also convey substantial economic benefits to people living in arid and semiarid regions of the United States. Such an industry would comprise the agricultural production of the hydrocarbon-containing plants and the development of commercial processing and manufacturing facilities to extract the latex and other products.

(5) Congress further recognizes that ongoing research into the development and commercialization of native latex has been conducted by the Department of Agriculture, the Department of Commerce, the National Science Foundation, and other public as well as private and industrial research groups, and that these research efforts should be continued and expanded.

(b) In addition, Congress recognizes that the development of a domestic industry or industries for the production and manufacture from native agricultural crops of products other than rubber which are of strategic and industrial importance but for which the Nation is now dependent upon foreign sources, would benefit the economy, the defense, and the general well-being of the Nation, and that additional research efforts in this area should be undertaken or continued and expanded.

(c) It is therefore the policy of the United States to provide for the development and demonstration of economically feasible means of culturing and manufacturing *Parthenium* and other hydrocarbon-containing plants, along with other native agricultural crops, for the production of critical agricultural materials to benefit the Nation and promote economic development.
