§ 2304. Contracts: competition requirements

(a)(1) Except as provided in subsections (b), (c), and (g) and except in the case of procurement procedures otherwise expressly authorized by statute, the head of an agency in conducting a procurement for property or services—

(A) shall obtain full and open competition through the use of competitive procedures in accordance with the requirements of this chapter and the Federal Acquisition Regulation; and

(B) shall use the competitive procedure or combination of competitive procedures that is best suited under the circumstances of the procurement.

(2) In determining the competitive procedure appropriate under the circumstances, the head of an agency—

(A) shall solicit sealed bids if—

(i) time permits the solicitation, submission, and evaluation of sealed bids;

(ii) the award will be made on the basis of price and other price-related factors;

(iii) it is not necessary to conduct discussions with the responding sources about their bids; and

(iv) there is a reasonable expectation of receiving more than one sealed bid; and

(B) shall request competitive proposals if sealed bids are not appropriate under clause (A).

(b)(1) The head of an agency may provide for the procurement of property or services covered by this chapter using competitive procedures but excluding a particular source in order to establish or maintain an alternative source or sources of supply for that property or service if the head of the agency determines that to do so—

(A) would increase or maintain competition and would likely result in reduced overall costs for such procurement, or for any anticipated procurement, of property or services;

(B) would be in the interest of national defense in having a facility (or a producer, manufacturer, or other supplier) available for furnishing the property or service in case of a national emergency or industrial mobilization;

(C) would be in the interest of national defense in establishing or maintaining an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center;

(D) would ensure the continuous availability of a reliable source of supply of such property or service;

(E) would satisfy projected needs for such property or service determined on the basis of a history of high demand for the property or service; or

(F) in the case of medical supplies, safety supplies, or emergency supplies, would satisfy a critical need for such supplies.

(2) The head of an agency may provide for the procurement of property or services covered by this section using competitive procedures, but excluding concerns other than small business concerns in furtherance of sections 9 and 15 of the Small Business Act (15 U.S.C. 638, 644).

(3) A contract awarded pursuant to the competitive procedures referred to in paragraphs (1) and (2) shall not be subject to the justification and approval required by subsection (f)(1).

(4) A determination under paragraph (1) may not be made for a class of purchases or contracts.

(c) The head of an agency may use procedures other than competitive procedures only when—

(2) the agency's need for the property or services is of such an unusual and compelling urgency that the United States would be seriously injured unless the agency is permitted to limit the number of sources from which it solicits bids or proposals;

(3) it is necessary to award the contract to a particular source or sources in order (A) to maintain a facility, producer, manufacturer, or other supplier available for furnishing property or services in case of a national emergency or to achieve industrial mobilization, (B) to establish or maintain an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center, or (C) to procure the services of an expert for use, in any litigation or dispute (including any reasonably foreseeable litigation or dispute) involving the Federal Government, in any trial, hearing, or proceeding before any court, administrative tribunal, or agency, or to procure the services of an expert or neutral for use in any part of an alternative dispute resolution or negotiated rulemaking process, whether or not the expert is expected to testify;

(4) the terms of an international agreement or a treaty between the United States and a foreign government or international organization, or the written directions of a foreign government reimbursing the agency for the cost of the procurement of the property or services for such government, have the effect of requiring the use of procedures other than competitive procedures;

(5) subject to subsection (k), a statute expressly authorizes or requires that the procurement be made through another agency or from a specified source, or the agency's need is for a brand-name commercial product for authorized resale;
