§ 2281. Congressional findings and declaration of purpose

The Congress finds that demands for funds through Federal and federally assisted borrowing programs are increasing faster than the total supply of credit and that such borrowings are not adequately coordinated with overall Federal fiscal and debt management policies. The purpose of this chapter is to assure coordination of these programs with the overall economic and fiscal policies of the Government, to reduce the cost of Federal and federally assisted borrowings from the public, and to assure that such borrowings are financed in a manner least disruptive of private financial markets and institutions.
