ENCOURAGEMENT OF DEBT-FOR-DEVELOPMENT SWAPS THROUGH LOCAL CURRENCY REPAYMENT

Pub. L. 101-240, title V, § 531, Dec. 19, 1989, 103 Stat. 2513, provided that:

“(a) STATEMENT OF POLICY.—It is the sense of the Congress that—

“(1) debt-for-development swaps, where payment is made in local currency at the free market rate, serve a useful purpose by providing banking institutions with constructive opportunities for the reduction of the external debt of highly indebted developing countries in a process that involves the participation of private, nonprofit groups in providing a stimulus to the economic and social development of such developing countries;

“(2) debt-for-development swaps provide highly indebted developing countries with a creative method of reducing external debt burdens, while promoting their economic growth and restructuring objectives;

“(3) banking institutions should give careful consideration to engaging in such swaps as one means of strengthening overall loan portfolios through the reduction of high external debt burdens while expanding economic opportunities through private sector initiatives; and

“(4) in order to avoid any bias against such swaps in the regulatory framework applicable to the financial reporting of banking institutions, where payment is made in local currency at the free market rate, appropriate recognition of the fair market exchange value of the currency so received should be made.
