REFERENCES IN TEXT

Section 241 of title 20, as in effect before enactment of the Improving America's Schools Act of 1994, referred to in par. (1)(C), means section 241 of Title 20, Education, prior to its repeal by Pub. L. 103-382, title III, §331(b), Oct. 20, 1994, 108 Stat. 3965.

AMENDMENTS

2015—Par. (1)(A). Pub. L. 114-95 made technical amendment to reference in original act which appears in text as reference to section 7801 of title 20.

2002—Par. (1)(A). Pub. L. 107-110 substituted “7801” for “8801”.

1994—Par. (1)(A). Pub. L. 103-382, §391(c)(4)(A), made technical amendment to reference to section 8801 of title 20 to reflect change in reference to corresponding section of original act.

Par. (1)(C). Pub. L. 103-382 directed two separate amendments of par. (1)(C), the first, by section 391(c)(4)(B) of Pub. L. 103-382, directed the insertion of “or successor authority” immediately after “section 241 of title 20”, the second, by section 392(b)(2) of Pub. L. 103-382, directed the insertion (without reference to the first amendment) of “as in effect before enactment of the Improving America's Schools Act of 1994” immediately after “section 241 of title 20.” Literal execution of the second amendment was not possible, as “section 241 of title 20,” was amended to read “section 241 of title 20 or successor authority,” by the first amendment. Commas were editorially inserted before and after the phrase added by the second amendment and it was inserted immediately after “section 241 of title 20” to reflect the probable intent of Congress.

(a) Publication

In order to make continuous progress toward the long-term goal established in section 2661 of this title, the Administrator of the Environmental Protection Agency shall, not later than June 1, 1989, publish and make available to the public an updated version of its document titled “A Citizen's Guide to Radon”. The Administrator shall revise and republish the guide as necessary thereafter.

(b) Information included

(1) Action levels

The updated citizen's guide published as provided in subsection (a) shall include a description of a series of action levels indicating the health risk associated with different levels of radon exposure.

(2) Other information

The updated citizen's guide shall also include information with respect to each of the following:

(A) The increased health risk associated with the exposure of potentially sensitive populations to different levels of radon.

(B) The increased health risk associated with the exposure to radon of persons engaged in potentially risk-increasing behavior.

(C) The cost and technological feasibility of reducing radon concentrations within existing and new buildings.

(D) The relationship between short-term and long-term testing techniques and the relationship between (i) measurements based on both such techniques, and (ii) the actions¹ levels set forth as provided in paragraph (1).

(E) Outdoor radon levels around the country.

(Pub. L. 94-469, title III, §303, as added Pub. L. 100-551, §1(a), Oct. 28, 1988, 102 Stat. 2755.)

§ 2664. Model construction standards and techniques

The Administrator of the Environmental Protection Agency shall develop model construction standards and techniques for controlling radon levels within new buildings. To the maximum extent possible, these standards and techniques should be developed with the assistance of organizations involved in establishing national building construction standards and techniques. The Administrator shall make a draft of the document containing the model standards and techniques available for public review and comment. The model standards and techniques shall provide for geographic differences in construction types and materials, geology, weather, and other variables that may affect radon levels in new buildings. The Administrator shall make final model standards and techniques available to the public by June 1, 1990. The Administrator shall work to ensure that organizations responsible for developing national model building codes, and authorities which regulate building construction within States or political subdivisions within States, adopt the Agency's model standards and techniques.
