

(b) Availability of Fund

The working capital of the fund shall be available for obligation and payment for any activities authorized by this chapter, and for any activities for which provision is made in the appropriations which reimburse the fund.

(c) Reimbursements

In the performance of authorized activities, the Working Capital Fund shall be available and may be reimbursed for expenses of hire of automobile, hire of consultants, and travel to meetings, to the extent that such expenses are authorized for the appropriations of the Department of Commerce.

(d) Credits

The fund may be credited with advances and reimbursements, including receipts from non-Federal sources, for services performed under the authority of section 273 of this title.

(e) "Cost" defined

As used in this chapter, the term "cost" shall be construed to include directly related expenses and appropriate charges for indirect and administrative expenses.

(f) Distribution of earnings; restoration of prior impairment

The amount of any earned net income resulting from the operation of the fund at the close of each fiscal year shall be paid into the general fund of the Treasury: *Provided*, That such earned net income may be applied to restore any prior impairment of the fund, and to ensure the availability of working capital necessary to replace equipment and inventories.

NIST CAMPUS SECURITY

Pub. L. 114-329, title I, §113, Jan. 6, 2017, 130 Stat. 2993, provided that:

“(a) SUPERVISORY AUTHORITY.—The Department of Commerce Office of Security shall directly manage the law enforcement and site security programs of NIST [National Institute of Standards and Technology] through an assigned Director of Security for NIST without increasing the number of full-time equivalent employees of the Department of Commerce, including NIST.

“(b) REPORTS.—The Director of Security for NIST shall provide an activities and security report on a quarterly basis for the first year after the date of enactment of this Act [Jan. 6, 2017], and on an annual basis thereafter, to the Under Secretary for Standards and Technology and the appropriate committees of Congress [Committee on Commerce, Science, and Transportation of the Senate and Committee on Science, Space, and Technology of the House of Representatives].”

§ 278f. Fire Research Center**(a) Establishment; programs of research; functions of Secretary; dissemination of information**

There is hereby established within the Department of Commerce a Fire Research Center which shall have the mission of performing and supporting research on all aspects of fire with the aim of providing scientific and technical knowledge applicable to the prevention and control of fires. The content and priorities of the research program shall be determined in consultation with the Administrator of the United States Fire Administration. In implementing this section, the Secretary is authorized to conduct, directly or through contracts or grants, a fire research program, including—

(1) basic and applied fire research for the purpose of arriving at an understanding of the fundamental processes underlying all aspects of fire. Such research shall include scientific investigations of—

(A) the physics and chemistry of combustion processes;

(B) the dynamics of flame ignition, flame spread, and flame extinguishment;

(C) the composition of combustion products developed by various sources and under various environmental conditions;

(D) the early stages of fires in buildings and other structures, structural subsystems and structural components in all other types of fires, including, but not limited to, forest fires, brush fires, fires underground, oil blowout fires, and waterborne fires, with the aim of improving early detection capability;

(E) the behavior of fires involving all types of buildings and other structures and their contents (including mobile homes and highrise buildings, construction materials, floor and wall coverings, coatings, furnishings, and other combustible materials), and all other types of fires, including forest fires, brush fires, fires underground, oil blowout fires, and waterborne fires;

(F) the unique fire hazards arising from the transportation and use, in industrial and professional practices, of combustible gases, fluids, and materials;

(G) design concepts for providing increased fire safety consistent with habitability,
