SUBCHAPTER CXX—MORLEY NELSON  
SNAKE RIVER BIRDS OF PREY NATIONAL  
CONSERVATION AREA

**§ 460iii. Findings**

The Congress finds the following:

(1) The public lands managed by the Bureau of Land Management in the State of Idaho within the Snake River Birds of Prey Area contain one of the densest known nesting populations of eagles, falcons, owls, hawks, and other birds of prey (raptors) in North America.

(2) These public lands constitute a valuable national biological and educational resource since birds of prey are important components of the ecosystem and indicators of environmental quality, and contribute significantly to the quality of wildlife and human communities.

(3) These public lands also contain important historic and cultural resources (including significant archaeological resources) as well as other resources and values, all of which should be protected and appropriately managed.

(4) A military training area within the Snake River Birds of Prey Area, known as the Orchard Training Area, has been used since 1953 by reserve components of the Armed Forces. Military use of this area is currently governed by a Memorandum of Understanding between the Bureau of Land Management and the State of Idaho Military Division, dated May 1985. Operating under this Memorandum of Understanding, the Idaho National Guard has provided valuable assistance to the Bureau of Land Management with respect to fire control and other aspects of management of the Orchard Training Area and the other lands in the Snake River Birds of Prey Area. Military use of the lands within the Orchard Training Area should continue in accordance with such Memorandum of Understanding (or extension or renewal thereof), to the extent consistent with section 460iii-3(e) of this title, because this would be in the best interest of training of the reserve components (an important aspect of national security) and of the local economy.

(5) Protection of the conservation area as a home for raptors can best and should be accomplished by the Secretary of the Interior, acting through the Bureau of Land Management, under a management plan that—

(A) emphasizes management, protection, and rehabilitation of habitat for these raptors and of other resources and values of the area;

(B) provides for continued military use, consistent with the requirements of section 460iii-3(e) of this title, of the Orchard Training Area by reserve components of the Armed Forces;

(C) addresses the need for public educational and interpretive opportunities;

(D) allows for diverse appropriate uses of lands in the area to the extent consistent with the maintenance and enhancement of raptor populations and habitats and protection and sound management of other resources and values of the area; and

(E) demonstrates management practices and techniques that may be useful to other areas of the public lands and elsewhere.

(6) There exists near the conservation area a facility, the World Center for Birds of Prey operated by The Peregrine Fund, Inc., where research, public education, recovery, and reestablishment operations exist for endangered
