§ 4712. National ballast water management information

(a) Studies on introduction of aquatic nuisance species by vessels

(1) Ballast exchange study

The Task Force, in cooperation with the Secretary, shall conduct a study—

(A) to assess the environmental effects of ballast water exchange on the diversity and abundance of native species in receiving estuarine, marine, and fresh waters of the United States; and

(B) to identify areas within the waters of the United States and the exclusive economic zone, if any, where the exchange of ballast water does not pose a threat of infes-

tation or spread of aquatic nuisance species in the Great Lakes and other waters of the United States.

(2) Biological study

The Task Force, in cooperation with the Secretary, shall conduct a study to determine whether aquatic nuisance species threaten the ecological characteristics and economic uses of Lake Champlain and other waters of the United States other than the Great Lakes.

(3) Shipping study

The Secretary shall conduct a study to determine the need for controls on vessels entering waters of the United States, other than the Great Lakes, to minimize the risk of unintentional introduction and dispersal of aquatic nuisance species in those waters. The study shall include an examination of—

(A) the degree to which shipping may be a major pathway of transmission of aquatic nuisance species in those waters;

(B) possible alternatives for controlling introduction of those species through shipping; and

(C) the feasibility of implementing regional versus national control measures.

(b) Ecological and ballast water discharge surveys

(1) Ecological surveys

(A) In general

The Task Force, in cooperation with the Secretary, shall conduct ecological surveys of the Chesapeake Bay, San Francisco Bay, and Honolulu Harbor and, as necessary, of other estuaries of national significance and other waters that the Task Force determines—

(i) to be highly susceptible to invasion by aquatic nuisance species resulting from ballast water operations and other operations of vessels; and

(ii) to require further study.

(B) Requirements for surveys

In conducting the surveys under this paragraph, the Task Force shall, with respect to each such survey—

(i) examine the attributes and patterns of invasions of aquatic nuisance species; and

(ii) provide an estimate of the effectiveness of ballast water management and other vessel management guidelines issued and regulations promulgated under this subchapter in abating invasions of aquatic nuisance species in the waters that are the subject of the survey.

(2) Ballast water discharge surveys

(A) In general

The Secretary, in cooperation with the Task Force, shall conduct surveys of ballast water discharge rates and practices in the waters referred to in paragraph (1)(A) on the basis of the criteria under clauses (i) and (ii) of such paragraph.

(B) Requirements for surveys

In conducting the surveys under this paragraph, the Secretary shall—
