**§ 6401. Findings; policy**

**(a) Findings**

Congress makes the following findings:

(1) The right to freedom of religion undergirds the very origin and existence of the United States. Many of our Nation’s founders fled religious persecution abroad, cherishing in their hearts and minds the ideal of religious freedom. They established in law, as a fundamental right and as a pillar of our Nation, the right to freedom of religion. From its birth to this day, the United States has prized this legacy of religious freedom and honored this heritage by standing for religious freedom and offering refuge to those suffering religious persecution.
