CHAPTER 100—GLOBAL FOOD SECURITY

Sec.	
9301.	Findings.
9302.	Statement of policy objectives; sense of Congress.
9303.	Definitions.
9304.	Comprehensive Global Food Security Strategy.
9305.	Assistance to implement the Global Food Security Strategy.
9306.	Emergency Food Security Program.
9307.	Reports.
9308.	Rule of construction.

§ 9301. Findings

Congress makes the following findings:

(1) According to the Food and Agriculture Organization of the United Nations (referred to in this section as the “FAO”), 805,000,000 people worldwide suffer from chronic hunger. Hunger and malnutrition rob people of health and productive lives and stunt the mental and physical development of future generations.

(2) According to the January 2014 “Worldwide Threat Assessment of the US Intelligence Community”—

(A) the “[l]ack of adequate food will be a destabilizing factor in countries important to US national security that do not have the financial or technical abilities to solve their internal food security problems”; and

(B) “[f]ood and nutrition insecurity in weakly governed countries might also provide opportunities for insurgent groups to capitalize on poor conditions, exploit international food aid, and discredit governments for their inability to address basic needs”.

(3) A comprehensive approach to sustainable food and nutrition security should not only respond to emergency food shortages, but should also address malnutrition, resilience to food and nutrition insecurity, building the capacity of poor, rural populations to improve their agricultural productivity and incomes, removing institutional impediments to agricultural development, value chain access and efficiency, including processing and storage, enhancing agribusiness development, access to markets and activities that address the specific needs and barriers facing women and small-scale producers, education, and collaborative research.

SHORT TITLE

Pub. L. 114–195, §1, July 20, 2016, 130 Stat. 675, provided that: “This Act [enacting this chapter and amending sections 2292 and 2292a of this title] may be cited as the ‘Global Food Security Act of 2016.’”

§ 9302. Statement of policy objectives; sense of Congress

(a) Statement of policy objectives

It is in the national interest of the United States to promote global food security, resilience, and nutrition, consistent with national food security investment plans, which is reinforced through programs, activities, and initiatives that—

(1) place food insecure countries on a path toward self-sufficiency and economic freedom through the coordination of United States foreign assistance programs;

(2) accelerate inclusive, agricultural-led economic growth that reduces global poverty, hunger, and malnutrition, particularly among women and children;

(3) increase the productivity, incomes, and livelihoods of small-scale producers, especially women, by working across agricultural value chains, enhancing local capacity to manage agricultural resources effectively and expanding producer access to local and international markets;

(4) build resilience to food shocks among vulnerable populations and households while reducing reliance upon emergency food assistance;
