

**(c) Cross reference**

**For other rules applicable to depreciation of improvements, see section 167.**

(Aug. 16, 1954, ch. 736, 68A Stat. 207; Pub. L. 85-866, title I, §35, Sept. 2, 1958, 72 Stat. 1632; Pub. L. 94-455, title XIX, §1906(b)(13)(A), Oct. 4, 1976, 90 Stat. 1834.)

## AMENDMENTS

1976—Subsec. (a). Pub. L. 94-455 struck out “or his delegate” after “Secretary”.

1958—Subsec. (d)(4). Pub. L. 85-866 substituted “devises” for “devises”.

## EFFECTIVE DATE OF 1958 AMENDMENT

Amendment by Pub. L. 85-866 applicable to taxable years beginning after Dec. 31, 1953, and ending after Aug. 16, 1954, see section 1(c)(1) of Pub. L. 85-866, set out as a note under section 165 of this title.

**§ 612. Basis for cost depletion**

Except as otherwise provided in this subchapter, the basis on which depletion is to be allowed in respect of any property shall be the adjusted basis provided in section 1011 for the purpose of determining the gain upon the sale or other disposition of such property.

(Aug. 16, 1954, ch. 736, 68A Stat. 208.)

**§ 613. Percentage depletion****(a) General rule**

In the case of the mines, wells, and other natural deposits listed in subsection (b), the allowance for depletion under section 611 shall be the percentage, specified in subsection (b), of the gross income from the property excluding from such gross income an amount equal to any rents or royalties paid or incurred by the taxpayer in respect of the property. Such allowance shall not exceed 50 percent (100 percent in the case of oil and gas properties) of the taxpayer's taxable income from the property (computed without allowance for depletion and without any deduction under section 199A). For purposes of the preceding sentence, the allowable deductions taken into account with respect to expenses of mining in computing the taxable income from the property shall be decreased by an amount equal to so much of any gain which (1) is treated under section 1245 (relating to gain from disposition of certain depreciable property) as ordinary income, and (2) is properly allocable to the property. In no case shall the allowance for depletion under section 611 be less than it would be if computed without reference to this section.

**(b) Percentage depletion rates**

The mines, wells, and other natural deposits, and the percentages, referred to in subsection (a) are as follows:

**(1) 22 percent**

(A) sulphur and uranium; and

(B) if from deposits in the United States—  
anorthosite, clay, laterite, and nephelite syenite (to the extent that alumina and aluminum compounds are extracted therefrom), asbestos, bauxite, celestite, chromite, corundum, fluorspar, graphite, ilmenite, kyanite, mica, olivine, quartz crystals (radio grade), ru-

tile, block steatite talc, and zircon, and ores of the following metals: antimony, beryllium, bismuth, cadmium, cobalt, columbium, lead, lithium, manganese, mercury, molybdenum, nickel, platinum and platinum group metals, tantalum, thorium, tin, titanium, tungsten, vanadium, and zinc.

**(2) 15 percent**

If from deposits in the United States—

(A) gold, silver, copper, and iron ore, and

(B) oil shale (except shale described in paragraph (5)).

**(3) 14 percent**

(A) metal mines (if paragraph (1)(B) or (2)(A) does not apply), rock asphalt, and vermiculite; and

(B) if paragraph (1)(B), (5), or (6)(B) does not apply, ball clay, bentonite, china clay, sagger clay, and clay used or sold for use for purposes dependent on its refractory properties.

**(4) 10 percent**

Asbestos (if paragraph (1)(B) does not apply), brucite, coal, lignite, perlite, sodium chloride, and wollastonite.

**(5) 7½ percent**

Clay and shale used or sold for use in the manufacture of sewer pipe or brick, and clay, shale, and slate used or sold for use as sintered or burned lightweight aggregates.

**(6) 5 percent**

(A) gravel, peat, pumice, sand, scoria, shale (except shale described in paragraph (2)(B) or (5)), and stone (except stone described in paragraph (7));

(B) clay used, or sold for use, in the manufacture of drainage and roofing tile, flower pots, and kindred products; and

(C) if from brine wells—bromine, calcium chloride, and magnesium chloride.

**(7) 14 percent**

All other minerals, including, but not limited to, apatite, barite, borax, calcium carbonates, diatomaceous earth, dolomite, feldspar, fullers earth, garnet, gilsonite, granite, limestone, magnesite, magnesium carbonates, marble, mollusk shells (including clam shells and oyster shells), phosphate rock, potash, quartzite, slate, soapstone, stone (used or sold for use by the mine owner or operator as dimension stone or ornamental stone), thenardite, tripoli, trona, and (if paragraph (1)(B) does not apply) bauxite, flake graphite, fluorspar, lepidolite, mica, spodumene, and talc (including pyrophyllite), except that, unless sold on bid in direct competition with a bona fide bid to sell a mineral listed in paragraph (3), the percentage shall be 5 percent for any such other mineral (other than slate to which paragraph (5) applies) when used, or sold for use, by the mine owner or operator as rip rap, ballast, road material, rubble, concrete aggregates, or for similar purposes. For purposes of this paragraph, the term “all other minerals” does not include—

(A) soil, sod, dirt, turf, water, or mosses;

(B) minerals from sea water, the air, or similar inexhaustible sources; or
