

(A) to the understanding of the impacts of human activity on water and ecological resources; and

(B) to the assessment of whether available surface and groundwater supplies will be available to meet the future needs of the United States.

(Pub. L. 111–11, title IX, §9501, Mar. 30, 2009, 123 Stat. 1329.)

§ 10362. Definitions

In this chapter:

(1) Administrator

The term “Administrator” means the Administrator of the National Oceanic and Atmospheric Administration.

(2) Advisory Committee

The term “Advisory Committee” means the National Advisory Committee on Water Information established—

(A) under the Office of Management and Budget Circular 92–01; and

(B) to coordinate water data collection activities.

(3) Assessment program

The term “assessment program” means the water availability and use assessment program established by the Secretary under section 10368(a) of this title.

(4) Climate division

The term “climate division” means 1 of the 359 divisions in the United States that represents 2 or more regions located within a State that are as climatically homogeneous as possible, as determined by the Administrator.

(5) Commissioner

The term “Commissioner” means the Commissioner of Reclamation.

(6) Director

The term “Director” means the Director of the United States Geological Survey.

(7) Eligible applicant

The term “eligible applicant” means—

(A) any State, Indian tribe, irrigation district, or water district;

(B) any State, regional, or local authority, the members of which include 1 or more organizations with water or power delivery authority;

(C) any other organization with water or power delivery authority; and

(D) any nonprofit conservation organization, if—

(i) the nonprofit conservation organization is acting in partnership with and with the agreement of an entity described in subparagraph (A), (B), or (C); or

(ii) in the case of an application for a project to improve the condition of a natural feature or nature-based feature on Federal land, the entities described in subparagraph (A), (B), or (C) from the applicable service area have been notified of the project application and there is no written objection to the project.

(8) Federal Power Marketing Administration

The term “Federal Power Marketing Administration” means—

(A) the Bonneville Power Administration;

(B) the Southeastern Power Administration;

(C) the Southwestern Power Administration; and

(D) the Western Area Power Administration.

(9) Hydrologic accounting unit

The term “hydrologic accounting unit” means 1 of the 352 river basin hydrologic accounting units used by the United States Geological Survey.

(10) Indian tribe

The term “Indian tribe” has the meaning given the term in section 5304 of title 25.

(11) Major aquifer system

The term “major aquifer system” means a groundwater system that is—

(A) identified as a significant groundwater system by the Director; and

(B) included in the Groundwater Atlas of the United States, published by the United States Geological Survey.

(12) Major reclamation river basin

(A) In general

The term “major reclamation river basin” means each major river system (including tributaries)—

(i) that is located in a service area of the Bureau of Reclamation; and

(ii) at which is located a federally authorized project of the Bureau of Reclamation.

(B) Inclusions

The term “major reclamation river basin” includes—

(i) the Colorado River;

(ii) the Columbia River;

(iii) the Klamath River;

(iv) the Missouri River;

(v) the Rio Grande;

(vi) the Sacramento River;

(vii) the San Joaquin River; and

(viii) the Truckee River.

(13) Natural feature

The term “natural feature” means a feature that is created through the action of physical, geological, biological, and chemical processes over time.

(14) Nature-based feature

The term “nature-based feature” means a feature that is created by human design, engineering, and construction to provide a means to reduce water supply and demand imbalances or drought or flood risk by acting in concert with natural processes.

(15) Non-Federal participant

The term “non-Federal participant” means—

(A) a State, regional, or local authority;

(B) an Indian tribe or tribal organization;

or

(C) any other qualifying entity, such as a water conservation district, water conservancy district, or rural water district or as-

sociation, or a nongovernmental organization.

(16) Panel

The term “panel” means the climate change and water intragovernmental panel established by the Secretary under section 10366(a) of this title.

(17) Program

The term “program” means the regional integrated sciences and assessments program—

- (A) established by the Administrator; and
- (B) that is comprised of 8 regional programs that use advances in integrated climate sciences to assist decisionmaking processes.

(18) Secretary

(A) In general

Except as provided in subparagraph (B), the term “Secretary” means the Secretary of the Interior.

(B) Exceptions

The term “Secretary” means—

- (i) in the case of sections 10363, 10364, and 10369 of this title, the Secretary of the Interior (acting through the Commissioner); and
- (ii) in the case of sections 10367 and 10368 of this title, the Secretary of the Interior (acting through the Director).

(19) Service area

The term “service area” means any area that encompasses a watershed that contains a federally authorized reclamation project that is located in any State or area described in section 391 of title 43.

(Pub. L. 111–11, title IX, §9502, Mar. 30, 2009, 123 Stat. 1330; Pub. L. 116–260, div. FF, title XI, §1106(a), Dec. 27, 2020, 134 Stat. 3240.)

AMENDMENTS

2020—Pub. L. 116–260, §1106(a)(1), substituted “chapter” for “section” in introductory provisions.

Par. (7). Pub. L. 116–260, §1106(a)(2), added par. (7) and struck out former par. (7). Prior to amendment, text read as follows: “The term ‘eligible applicant’ means any State, Indian tribe, irrigation district, water district, or other organization with water or power delivery authority.”

Par. (10). Pub. L. 116–260, §1106(a)(3), made technical amendment to reference in original act which appears in text as a reference to section 5304 of title 25.

Pars. (13) to (19). Pub. L. 116–260, §1106(a)(4), (5), added pars. (13) and (14) and redesignated former pars. (13) to (17) as (15) to (19).

§ 10363. Reclamation climate change and water program

(a) In general

The Secretary shall establish a climate change adaptation program—

- (1) to coordinate with the Administrator and other appropriate agencies to assess each effect of, and risk resulting from, global climate change with respect to the quantity of water resources located in a service area; and
- (2) to ensure, to the maximum extent possible, that strategies are developed at watershed and aquifer system scales to address po-

tential water shortages, conflicts, and other impacts to water users located at, and the environment of, each service area.

(b) Required elements

In carrying out the program described in subsection (a), the Secretary shall—

(1) coordinate with the United States Geological Survey, the National Oceanic and Atmospheric Administration, the program, and each appropriate State water resource agency, to ensure that the Secretary has access to the best available scientific information with respect to presently observed and projected future impacts of global climate change on water resources;

(2) assess specific risks to the water supply of each major reclamation river basin, including any risk relating to—

- (A) a change in snowpack;
- (B) changes in the timing and quantity of runoff;
- (C) changes in groundwater recharge and discharge; and
- (D) any increase in—
 - (i) the demand for water as a result of increasing temperatures; and
 - (ii) the rate of reservoir evaporation;

(3) with respect to each major reclamation river basin, analyze the extent to which changes in the water supply of the United States will impact—

- (A) the ability of the Secretary to deliver water to the contractors of the Secretary;
- (B) hydroelectric power generation facilities;
- (C) recreation at reclamation facilities;
- (D) fish and wildlife habitat;
- (E) applicable species listed as an endangered, threatened, or candidate species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);
- (F) water quality issues (including salinity levels of each major reclamation river basin);
- (G) flow and water dependent ecological resiliency; and
- (H) flood control management;

(4) in consultation with appropriate non-Federal participants, consider and develop appropriate strategies to mitigate each impact of water supply changes analyzed by the Secretary under paragraph (3), including strategies relating to—

- (A) the modification of any reservoir storage or operating guideline in existence as of March 30, 2009;
- (B) the development of new water management, operating, or habitat restoration plans;
- (C) water conservation;
- (D) improved hydrologic models and other decision support systems; and
- (E) groundwater and surface water storage needs; and

(5) in consultation with the Director, the Administrator, the Secretary of Agriculture (acting through the Chief of the Natural Resources Conservation Service), and applicable State water resource agencies, develop a monitoring
