§ 8816. Purchase agreements**(a) Authority of Secretary concerned; consultative requirements**

Subject to sections 8812 and 8817 of this title, the Secretary concerned may commit to make, and make, purchase agreements for all or part of the biomass energy production of any biomass energy project, if the Secretary determines—

- (1) that such biomass energy is of a type, quantity, and quality that can be used by Federal agencies; and
- (2) that the quantity of such biomass energy, if delivery is accepted, would not exceed the likely needs of Federal agencies.

Each Secretary concerned shall consult with the other Secretary before making any determination under paragraph (2).

(b) Maximum sales price

The sales price specified in a purchase agreement under this section may not exceed the estimated prevailing market price as of the date of delivery, as determined by the Secretary of Energy, unless the Secretary concerned determines that such sales price must exceed the estimated prevailing market price in order to ensure the production of biomass energy to achieve the purposes of this chapter.

(c) Assurances required

The Secretary concerned in entering into, or committing to enter into, a purchase agreement under this section shall require—

- (1) assurances that the quality of the biomass energy purchased will meet standards for the use for which such energy is purchased;
- (2) assurances that the ordered quantities of such energy will be delivered on a timely basis; and

(3) such other assurances as may reasonably be required.

(d) Arrangements for delivery pursuant to agreement; charge to Federal agency receiving delivery

The Secretary concerned may take delivery of biomass energy pursuant to a purchase agreement under this section if appropriate arrangements have been made for its distribution to and use by one or more Federal agencies. Any Federal agency receiving such energy shall be charged (in accordance with otherwise applicable law), from sums appropriated to such Federal agency, for the prevailing market price as of the date of delivery, as determined by the Secretary of Energy, for the product which the biomass energy is replacing.

(e) Consultative requirements

The Secretary concerned shall consult with the Secretary of Defense and the Administrator of the General Services Administration in carrying out this section.

(f) Terms and conditions

Each purchase agreement, and commitment to enter into a purchase agreement, under this section shall provide that the Secretary concerned retains the right to refuse delivery of the biomass energy involved upon such terms and conditions as shall be specified in the purchase agreement.

(g) Maximum dollar amount of liability of United States

Each purchase agreement, or commitment to enter into a purchase agreement, which is made under this section shall specify the maximum dollar amount of liability of the United States under that agreement.

(h) Renegotiation of sales price and maximum liability

If the Secretary concerned determines, in the discretion of the Secretary, that—

- (1) a biomass energy project would not otherwise be satisfactorily completed or continued, and
- (2) completion or continuation of such project would be necessary to achieve the purposes of this chapter,

the sales price set forth in the purchase agreement, and maximum liability under such agreement, may be renegotiated.

§ 8817. General requirements regarding financial assistance**(a) Priorities, terms, availability, etc.**

(1) Priority for financial assistance under this subchapter, and the most favorable financial

terms available, shall be provided to a person for any biomass energy project that—

(A) uses a primary fuel other than petroleum or natural gas in the production of biomass fuel, such as geothermal energy resources, solar energy resources, or waste heat; or

(B) applies new technologies which expand the possible feedstocks, produces new forms of biomass energy, or produces biomass fuel using improved or new technologies.

Nothing in this paragraph shall be construed to exclude financial assistance for any project which does not use such a fuel or apply such a technology.

(2)(A) Financial assistance under this subchapter shall be available for a biomass energy project only if the Secretary concerned finds that the Btu content of the motor fuels to be used in the facility involved to produce the biomass fuel will not exceed the Btu content of the biomass fuel produced in the facility.

(B) In making the determination under subparagraph (A), the Secretary concerned shall take into account any displacement of motor fuel or other petroleum products which the applicant has demonstrated to the satisfaction of the Secretary would result from the use of the biomass fuel produced in the facility involved.

(3) No financial assistance may be provided under this subchapter to any person for any biomass energy project if the Secretary concerned finds that the process to be used by the project will not extract the protein content of the feedstock for utilization as food or feed for readily available markets in any case in which to do so would be technically and economically practicable.

(4) Financial assistance may not be provided under this subchapter to any person unless the Secretary concerned—

(A) finds that necessary feedstocks are available and it is reasonable to expect they will continue to be available in the future, and, for biomass energy projects using wood or wood wastes or residues from the National Forest System, there shall be taken into account current levels of use by then existing facilities;

(B) has obtained assurance that the person receiving such financial assistance will bear a reasonable degree of risk in the construction and operation of the project; and

(C) has determined that the amount of financial assistance provided for the project is not greater than is necessary to achieve the purposes of this chapter.

(5) In providing financial assistance under this subchapter, the Secretary concerned shall give due consideration to promoting competition.

(6) In determining the amount of financial assistance for any biomass energy project which will yield byproducts in addition to biomass energy, the Secretary shall consider the potential value of such byproducts and the costs attributable to their production.

(b) Terms, conditions, maturity, etc., for insured loans, and loan guarantees

An insured loan may not be made, and a loan guarantee may not be issued, under this subchapter unless the Secretary concerned deter-

mines that the terms, conditions, maturity, security, and schedule and amounts of repayments with respect to such loan are reasonable and meet such standards as the Secretary determines are sufficient to protect the financial interests of the United States.

(c) Application requirements

(1) No financial assistance may be provided to any person under this subchapter unless an application therefor—

(A) has been submitted to the Secretary concerned by that person in such form and under such procedures as the Secretary shall prescribe, consistent with the requirements of this subchapter, and

(B) has been approved by the Secretary in accordance with such procedures.

(2) Each such application shall include information regarding the construction costs of the biomass energy project involved, and estimates of operating costs and income relating to that project (including the sale of any byproducts from that project). In addition, each applicant shall provide—

(A) access at reasonable times to such other information, and

(B) such assurances,

as the Secretary concerned may require.

(d) Reports and recordkeeping

(1) Every recipient of financial assistance under this subchapter shall, as a condition precedent thereto, consent to such examinations and reports regarding the biomass energy project involved as the Secretary concerned may require.

(2) With respect to each biomass energy project for which financial assistance is provided under this subchapter, the Secretary shall—

(A) require from the recipient of financial assistance such reports and records relating to that project as the Secretary deems necessary;

(B) prescribe the manner in which such recipient shall keep such records; and

(C) have access to such records at reasonable times for the purpose of ensuring compliance with the terms and conditions upon which financial assistance is provided.

(e) Contracts and instruments of Secretary concerned backed by full faith and credit of United States

All contracts and instruments of the Secretary concerned to provide, or providing, for financial assistance shall be general obligations of the United States backed by its full faith and credit.

(f) Contestability of contracts

Subject to the conditions of any contract for financial assistance, such contract shall be incontestable in the hands of the holder, except as to fraud or material misrepresentation on the part of the holder.

(g) Fees for loan guarantees, etc.

(1) A fee or fees may be charged and collected by the Secretary concerned for any loan guarantee, price guarantee, or purchase agreement provided under this subchapter.

(2) The amount of such fee shall be based on the estimated administrative costs and risk of loss, except that such fee may not exceed 1 per centum of the amount of the financial assistance provided.

(h) Deposit of amounts received by Secretary concerned

All amounts received by the Secretary of Agriculture or the Secretary of Energy as fees, interest, repayment of principal, and any other moneys received by either Secretary from activities under this subchapter shall be deposited in the Treasury of the United States as miscellaneous receipts. The preceding sentence shall not apply to insured loans made under section 8813 of this title.
