

§ 3105. Agricultural research; authorization of additional appropriations; administrative expenses; availability of special research fund

(a) In order to carry out further research on utilization and associated problems in connection with the development and application of present, new, and extended uses of agricultural commodities and products thereof authorized by section 3104 of this title, and to disseminate information relative thereto, and in addition to all other appropriations authorized by this title,¹ there is authorized to be appropriated the following sums:

(1) \$3,000,000 for the fiscal year ending June 30, 1947, and each subsequent fiscal year.

(2) An additional \$3,000,000 for the fiscal year ending June 30, 1948, and each subsequent fiscal year.

(3) An additional \$3,000,000 for the fiscal year ending June 30, 1949, and each subsequent fiscal year.

(4) An additional \$3,000,000 for the fiscal year ending June 30, 1950, and each subsequent fiscal year.

(5) An additional \$3,000,000 for the fiscal year ending June 30, 1951, and each subsequent fiscal year.

(6) In addition to the foregoing, such additional funds beginning with the fiscal year ending June 30, 1952, and thereafter, as the Congress may deem necessary.

The Secretary of Agriculture, in accordance with such regulations as he deems necessary, and when in his judgment the work to be performed will be carried out more effectively, more rapidly, or at less cost than if performed by the Department of Agriculture, may enter into contracts with such public or private organizations or individuals as he may find qualified to carry on work under this section without regard to the provisions of section 6101 of title 41, and with respect to such contracts he may make advance progress or other payments without regard to the provisions of section 3324(a) and (b) of title 31. Contracts under this section may be made for work to continue not more than four years from the date of any such contract. Notwithstanding the provisions of section 5 of the Act of June 20, 1874, as amended (31 U.S.C. 713),¹ any unexpended balances of appropriations properly obligated by contracting with an organization as provided in this subsection may remain upon the books of the Treasury for not more than five fiscal years before being carried to the surplus fund and covered into the Treasury. Research authorized under this subsection shall be conducted so far as practicable at laboratories of the Department of Agriculture. Projects conducted under contract with public and private agencies shall be supplemental to and coordinated with research of these laboratories. Any contracts made pursuant to this authority shall contain requirements making the results of research and investigations available to the public through dedication, assignment to the Government, or such other means as the Secretary shall determine.

(b) In order to carry out further the purposes of section 3104 of this title, other than research

on utilization of agricultural commodities and the products thereof, and in addition to all other appropriations authorized by this title,¹ there is authorized to be appropriated for cooperative research with the State agricultural experiment stations and such other appropriate agencies as may be mutually agreeable to the Department of Agriculture and the experiment stations concerned, the following sums:

(1) \$1,500,000 for the fiscal year ending June 30, 1947, and each subsequent fiscal year.

(2) An additional \$1,500,000 for the fiscal year ending June 30, 1948, and each subsequent fiscal year.

(3) An additional \$1,500,000 for the fiscal year ending June 30, 1949, and each subsequent fiscal year.

(4) An additional \$1,500,000 for the fiscal year ending June 30, 1950, and each subsequent fiscal year.

(5) In addition to the foregoing such additional funds beginning with the fiscal year ending June 30, 1951, and thereafter, as the Congress may deem necessary.

(c) The Secretary may incur necessary administrative expenses not to exceed 3 per centum of the amount appropriated in any fiscal year in carrying out this section, including the specific objects of expense enumerated in section 427b¹ of this title.

(d) The "Special research fund, Department of Agriculture," provided by section 427c¹ of this title, shall continue to be available solely for research into laws and principles underlying basic problems of agriculture in its broadest aspects; research relating to the improvement of the quality of, and the development of, new and improved methods of production of, distribution of, and new and extended uses and markets for, agricultural commodities and byproducts and manufactures thereof; and research relating to the conservation, development, and use of land and water resources for agricultural purposes. Such research shall be in addition to research provided for under other law (but both activities shall be coordinated so far as practicable) and shall be conducted by such agencies of the Department of Agriculture as the Secretary of Agriculture may designate or establish.

(e) Appropriations for research work in the Department of Agriculture shall be available for accomplishing such purposes by contract through the means provided in subsection (a) of this section.

CODIFICATION

Section was formerly classified to section 427i of this title prior to editorial reclassification and renumbering as this section.

Section was enacted as part of act June 29, 1935, ch. 338, popularly known as the "Agricultural Research Act" and also as the "Bankhead-Jones Act", and not as part of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 which comprises this chapter.

In subsec. (a), "section 6101 of title 41" substituted for "section 3709, Revised Statutes" on authority of Pub. L. 111-350, §6(c), Jan. 4, 2011, 124 Stat. 3854, which Act enacted Title 41, Public Contracts.

In subsec. (a), "section 3324(a) and (b) of title 31" substituted for "section 3648, Revised Statutes [31 U.S.C. 529]" on authority of Pub. L. 97-258, §4(b), Sept. 13, 1982, 96 Stat. 1067, the first section of which enacted Title 31, Money and Finance.

AMENDMENTS

1954—Subsec. (e). Act July 23, 1954, added subsec. (e).

TRANSFER OF FUNCTIONS

Functions of all officers, agencies, and employees of Department of Agriculture transferred, with certain exceptions, to Secretary of Agriculture by 1953 Reorg. Plan No. 2, §1, eff. June 4, 1953, 18 F.R. 3219, 67 Stat. 633, set out as a note under section 2201 of this title.

SUBCHAPTER II—COORDINATION AND PLANNING OF AGRICULTURAL RESEARCH, EXTENSION, AND TEACHING

§ 3121. Responsibilities of Secretary and Department of Agriculture

The Department of Agriculture is designated as the lead agency of the Federal Government for agricultural research (except with respect to the biomedical aspects of human nutrition concerned with diagnosis or treatment of disease), extension, and teaching in the food and agricultural sciences, and the Secretary, in carrying out the Secretary's responsibilities, shall—

(1) establish jointly with the Secretary of Health and Human Services procedures for coordination with respect to nutrition research in areas of mutual interest;

(2) keep informed of developments in, and the Nation's need for, research, extension, teaching, and manpower development in the food and agricultural sciences and represent such need in deliberations within the Department of Agriculture, elsewhere within the executive branch of the United States Government, and with the several States and their designated land-grant colleges and universities, other colleges and universities, agricultural and related industries, and other interested institutions and groups;

(3) coordinate all agricultural research, extension, and teaching activity conducted or financed by the Department of Agriculture and, to the maximum extent practicable, by other agencies of the executive branch of the United States Government;

(4) take the initiative in establishing coordination of State-Federal cooperative agricultural research, extension, and teaching programs, funded in whole or in part by the Department of Agriculture in each State, through the administrative heads of land-grant colleges and universities and the State

directors of agricultural experiment stations and cooperative extension services, and other appropriate program administrators;

(5) consult the Advisory Board and appropriate advisory committees of the Department of Agriculture in the formulation of basic policies, goals, strategies, and priorities for programs of agricultural research, extension, and teaching;

(6) report (as a part of the Department of Agriculture's annual budget submissions) to the House Committee on Agriculture, the House Committee on Appropriations, the Senate Committee on Agriculture, Nutrition, and Forestry, and the Senate Committee on Appropriations actions taken or proposed to support the recommendations of the Advisory Board;

(7) establish appropriate review procedures to assure that agricultural research projects are timely and properly reported and published and that there is no unnecessary duplication of effort or overlapping between agricultural research units;

(8) establish Federal or cooperative multidisciplinary research teams on major agricultural research problems with clearly defined leadership, budget responsibility, and research programs;

(9) in order to promote the coordination of agricultural research of the Department of Agriculture, conduct a continuing inventory of ongoing and completed research projects being conducted within or funded by the Department;

(10) coordinate all agricultural research, extension, and teaching activities conducted or financed by the Department of Agriculture with the periodic renewable resource assessment and program provided for in sections 1601 and 1602 of title 16 and the appraisal and program provided for in sections 2004 and 2005 of title 16;

(11) coordinate the efforts of States, State cooperative institutions, State extension services, the Advisory Board, and other appropriate institutions in assessing the current status of, and developing a plan for, the effective transfer of new technologies, including biotechnology, to the farming community, with particular emphasis on addressing the unique problems of small- and medium-sized farms in gaining information about those technologies; and

(12) establish appropriate controls with respect to the development and use of the application of biotechnology to agriculture.
