

istrator with a basic schedule of the power and energy to be available to him from the Grand Coulee Dam Project. The Bureau, with the Secretary's approval, may revise the schedule from time to time, except that no revision decreasing the amount of power and energy available under an existing schedule shall be effective unless agreed to by the Administrator. The Bureau will make power and energy from the Grand Coulee Dam Project available to the Administrator in accordance with these schedules.

4. The Administrator shall market the power and energy delivered to him from the Grand Coulee Dam Project at rates to be fixed by the Secretary of Energy consistently with all applicable provisions of law and allocations of cost determined as provided thereunder. From time to time the Secretary of Energy, consistently with all applicable provisions of law and allocations of cost made pursuant thereto, shall determine the basis on which the Administrator and the Bureau shall compute the returns to be made to the Bureau for power and energy delivered to the Administrator from the Grand Coulee Dam Project pursuant to this order. All receipts collected by the Administrator from transmission and sale of power and energy shall be deposited with the Treasurer of the United States for credit to a special account, subject to allocation by the Secretary of Energy in accordance with the computations above provided for. Upon certification by the Secretary of Energy, the amounts of receipts properly allocable to the Bonneville Project shall be covered into the Treasury of the United States to the credit of miscellaneous receipts subject to the provisions of section 2 of the act of August 20, 1937, 50 Stat. 731, 732 [16 U.S.C. 832a]. The amounts certified by the Secretary of Energy as being allocable to the Grand Coulee Dam Project shall be covered into the Treasury for credit to the Reclamation Fund to the extent authorized by law.

5. In aid of this delegation of authority to the Secretary of the Interior and the Secretary of Energy, the Commissioner of the Bureau of Reclamation and the Bonneville Power Administrator shall, subject to the approval of the Secretary of the Interior and the Secretary of Energy, and the terms of this order, enter into any and all agreements that are necessary for the interconnection of the Bonneville Project and the Grand Coulee Dam Project and to carry out the provisions of this order.

**§ 835k. Return of construction costs from marketing revenues in event of inability of irrigation water users to repay within repayment period and lack of other sources of revenue**

Subject to the provisions of section 835l of this title, that portion of the construction cost of any project hereafter authorized to be constructed, operated, and maintained by the Secretary of the Interior under the Federal reclamation laws (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof or supplementary thereto) within the Pacific Northwest which, though allocated to irrigation, is beyond the ability of the irrigation water users to repay within the repayment period prescribed by law for that project and cannot be returned within the same period from other project sources of revenue shall be charged to and returned within that period from net revenues derived from the marketing of commercial power and energy through the Federal Columbia River power system, unless otherwise provided by law. As used in this section, the term "Pacific Northwest" has the meaning ascribed to it in section 837 of this title.

**Editorial Notes**

REFERENCES IN TEXT

Act of June 17, 1902, referred to in text, is act June 17, 1902, ch. 1093, 32 Stat. 388, popularly known as the Reclamation Act, which is classified generally to chapter 12 (§371 et seq.) of Title 43, Public Lands. For complete classification of this Act to the Code, see Short Title note set out under section 371 of Title 43 and Tables.

CODIFICATION

Section is comprised of second par. of section 2(a) of Pub. L. 89-448, as so designated by Pub. L. 89-561. First sentence of first par. of such section 2(a) is classified to section 835j of this title; second sentence of such first par. repealed section 832h(c) of this title; subsecs. (b) and (c) of section 2 are classified to sections 835l and 835m of this title, respectively.

AMENDMENTS

1966—Pub. L. 89-561, §6(2), substituted "Subject to the provisions of section 835l of this title, that" for "That".

**Statutory Notes and Related Subsidiaries**

TRANSFER OF FUNCTIONS

Power marketing functions of Bureau of Reclamation, including construction, operation, and maintenance of transmission lines and attendant facilities, transferred to Secretary of Energy by section 7152(a)(1)(E), (3) of Title 42, The Public Health and Welfare, and are to be exercised by Secretary through a separate Administration within Department of Energy.

**§ 835l. Congressional declaration of financial policy; limitations on assistance; analyses and studies; "net revenues" defined**

It is declared to be the policy of the Congress that reclamation projects hereafter authorized in the Pacific Northwest to receive financial assistance from the Federal Columbia River power system shall receive such assistance only from the net revenues of that system as provided in this section, and that their construction shall be so scheduled that such assistance, together with similar assistance for previously authorized reclamation projects (including projects not now receiving such assistance for which the Congress may hereafter authorize financial assistance) will not cause increases in the rates and charges of the Bonneville Power Administration. It is further declared to be the policy of the Congress that the total assistance to all irrigation projects, both existing and future, in the Pacific Northwest shall not average more than \$30,000,000 annually in any period of twenty consecutive years. Any analyses and studies authorized by the Congress for reclamation projects in the Pacific Northwest shall be prepared in accordance with the provisions of sections 835j to 835m of this title. As used in sections 835j to 835m of this title, the term "net revenues" means revenues as determined from time to time which are not required for the repayment of (1) all costs allocated to power at projects in the Pacific Northwest then existing or authorized, including the cost of acquiring power by purchase or exchange, and (2) presently authorized assistance from power to irrigation at projects in the Pacific Northwest existing and authorized prior to September 7, 1966.

(Pub. L. 89-448, §2(b), as added Pub. L. 89-561, §6(3), Sept. 7, 1966, 80 Stat. 714.)

**Editorial Notes**

## CODIFICATION

Section is comprised of subsec. (b) of section 2 of Pub. L. 89-448, as added by Pub. L. 89-561. Subsecs. (a) and (c) of section 2 are classified to sections 835j and 835k, and 835m of this title, respectively.

**Statutory Notes and Related Subsidiaries**

## TRANSFER OF FUNCTIONS

Functions of Secretary of the Interior with respect to Bonneville Power Administration transferred to Secretary of Energy by section 7152(a)(1)(D), (2) of Title 42, The Public Health and Welfare, with Bonneville Power Administration to be preserved as a distinct organizational entity within Department of Energy and headed by an Administrator.

**§ 835m. Recommendations for changes in limitations on financial assistance; time and frequency of submission**

On December 20, 1974, and thereafter at intervals coinciding with anniversary dates of Federal Energy Regulatory Commission general review of the rates and charges of the Bonneville Power Administration, the Secretary of the Interior shall recommend to the Congress any changes in the dollar limitations herein placed upon financial assistance to Pacific Northwest reclamation projects that he believes justified by changes in the cost-price levels existing on July 1, 1966, or by other relevant changes of circumstances.

(Pub. L. 89-448, §2(c), as added Pub. L. 89-561, §6(3), Sept. 7, 1966, 80 Stat. 715; amended Pub. L. 95-91, title IV, §402(a)(1)(B), Aug. 4, 1977, 91 Stat. 583.)

**Editorial Notes**

## CODIFICATION

Section is comprised of subsec. (c) of section 2 of Pub. L. 89-448, as added by Pub. L. 89-561. Subsecs. (a) and (b) of section 2 are classified to sections 835j and 835k, and 835l of this title, respectively.

**Statutory Notes and Related Subsidiaries**

## TRANSFER OF FUNCTIONS

“Federal Energy Regulatory Commission” substituted in text for “Federal Power Commission” pursuant to Pub. L. 95-91, §402(a)(1)(B), which is classified to section 7172(a)(1)(B) of Title 42, The Public Health and Welfare.

The Federal Power Commission was terminated, and its functions, personnel, property, funds, etc., were transferred to the Secretary of Energy (except for certain functions which were transferred to the Federal Energy Regulatory Commission) by sections 7151(b), 7171(a), 7172(a), 7291, and 7293 of Title 42.

Functions of Secretary of the Interior with respect to Bonneville Power Administration transferred to Secretary of Energy by section 7152(a)(1)(D), (2) of Title 42, with Bonneville Power Administration to be preserved as a distinct organizational entity within Department of Energy and headed by an Administrator.

**CHAPTER 12E—NIAGARA POWER PROJECT**

Sec.	
836.	Authorization to license construction and operation; licensing conditions.
836a.	Rules governing issuance of license.

**§ 836. Authorization to license construction and operation; licensing conditions**

(a) The Federal Energy Regulatory Commission is expressly authorized and directed to issue a license to the Power Authority of the State of New York for the construction and operation of a power project with capacity to utilize all of the United States share of the water of the Niagara River permitted to be used by international agreement.

(b) The Federal Energy Regulatory Commission shall include among the licensing conditions, in addition to those deemed necessary and required under the terms of the Federal Power Act [16 U.S.C. 791a et seq.], the following:

(1) In order to assure that at least 50 per centum of the project power shall be available for sale and distribution primarily for the benefit of the people as consumers, particularly domestic and rural consumers, to whom such power shall be made available at the lowest rates reasonably possible and in such manner as to encourage the widest possible use, the licensee in disposing of 50 per centum of the project power shall give preference and priority to public bodies and nonprofit cooperatives within economic transmission distance. In any case in which project power subject to the preference provisions of this paragraph is sold to utility companies organized and administered for profit, the licensee shall make flexible arrangements and contracts providing for the withdrawal upon reasonable notice and fair terms of enough power to meet the reasonably foreseeable needs of the preference customers.

(2) The licensee shall make a reasonable portion of the project power subject to the preference provisions of paragraph (1) of this subsection available for use within reasonable economic transmission distance in neighboring States, but this paragraph shall not be construed to require more than 20 per centum of the project power subject to such preference provisions to be made available for use in such States. The licensee shall cooperate with the appropriate agencies in such States to insure compliance with this requirement. In the event of disagreement between the licensee and the power-marketing agencies of any of such States, the Federal Energy Regulatory Commission may, after public hearings, determine and fix the applicable portion of power to be made available and the terms applicable thereto: *Provided*, That if any such State shall have designated a bargaining agency for the procurement of such power on behalf of such State, the licensee shall deal only with such agency in that State. The arrangements made by the licensee for the sale of power to or in such States shall include observance of the preferences in paragraph (1) of this subsection.

(3) The licensee shall contract, with the approval of the Governor of the State of New York, pursuant to the procedure established by New York law, to sell to the licensee of Federal Energy Regulatory Commission project 16 for a period ending not later than the final maturity date of the bonds initially issued to finance the project works herein spe-
