§ 1467. Establishment of the Digital Coast

(a) Establishment

(1) In general

The Secretary shall establish a program for the provision of an enabling platform that integrates geospatial data, decision-support tools, training, and best practices to address coastal management issues and needs. Under the program, the Secretary shall strive to enhance resilient communities, ecosystem values, and coastal economic growth and development by helping communities address their issues, needs, and challenges through cost-effective and participatory solutions.

(2) Designation

The program established under paragraph (1) shall be known as the “Digital Coast” (in this section referred to as the “program”).

(b) Program requirements

In carrying out the program, the Secretary shall ensure that the program provides data integration, tool development, training, documentation, dissemination, and archive by—

- (1) making data and resulting integrated products developed under this section readily accessible via the Digital Coast internet website of the National Oceanic and Atmospheric Administration, the GeoPlatform.gov and data.gov internet websites, and such other information distribution technologies as the Secretary considers appropriate;
- (2) developing decision-support tools that use and display resulting integrated data and provide training on use of such tools;
- (3) documenting such data to Federal Geographic Data Committee standards; and
- (4) archiving all raw data acquired under this Act at the appropriate National Oceanic

and Atmospheric Administration data center or such other Federal data center as the Secretary considers appropriate.

(c) Coordination

The Secretary shall coordinate the activities carried out under the program to optimize data collection, sharing, and integration, and to minimize duplication by—

(1) consulting with coastal managers and decision makers concerning coastal issues, and sharing information and best practices, as the Secretary considers appropriate, with—

- (A) coastal States;
- (B) local governments; and
- (C) representatives of academia, the private sector, and nongovernmental organizations;
