

The Secretary may make a commitment to make a loan under this subsection to an applicant who has not met the requirements of paragraph (2), pending compliance by such applicant with such requirements. Such commitment shall be for period¹ of not to exceed 3 years unless the Secretary, in consultation with the Commission, extends such period for good cause shown. Notwithstanding any such commitment, no such loan shall be made before such person has complied with such requirements.

(b) Preference

The Secretary shall give preference to applicants under this section who do not have available alternative financing which the Secretary deems appropriate to carry out the project and whose projects will provide useful information as to the technical and economic feasibility of—

- (1) the generation of electric energy by such projects, and
- (2) the use of energy produced by such projects.

(c) Information

Every applicant for a license for a small hydroelectric power project receiving loans pursuant to this section shall furnish the Secretary with such information as the Secretary may require regarding equipment and services proposed to be used in the design, construction, and operation of such project. The Secretary shall have the right to forbid the use in such project of any equipment or services he finds inappropriate for such project by reason of cost, performance, or failure to carry out the purposes of this section. The Secretary shall make information which he obtains under this subsection available to the public, other than information described as entitled to confidentiality under section 796(d) of title 15.

(d) Joint participation

In making loans for small hydroelectric power projects under this section, the Secretary shall encourage joint participation, to the extent permitted by law, by applicants eligible to receive loans under this section with respect to the same project.

§ 2704. Loan rates and repayment

(a) Interest

Each loan made pursuant to this chapter shall bear interest at the discount or interest rate used at the time the loan is made for water resources planning projects under section 1962d-17 of title 42. Each such loan shall be for such term, as the Secretary deems appropriate, but not in excess of—

(1) 10 years (in the case of a loan under section 2702 of this title) or

(2) 30 years (in the case of a loan under section 2703 of this title).

(b) Repayments

Amounts repaid on loans made pursuant to this chapter shall be deposited into the United States Treasury as miscellaneous receipts.

§ 2705. Simplified and expeditious licensing procedures

(a) Establishment of program

The Commission shall establish, in such manner as the Commission deems appropriate, consistent with the applicable provisions of law, a program to use simple and expeditious licensing procedures under the Federal Power Act [16 U.S.C. 791a et seq.] for small hydroelectric power projects in connection with existing dams.

(b) Prerequisites

Before issuing any license under the Federal Power Act [16 U.S.C. 791a et seq.] for the construction or operation of any small hydroelectric power project the Commission—

(1) shall assess the safety of existing structures in any proposed project (including possible consequences associated with failure of such structures), and

(2) shall provide an opportunity for consultation with the Council on Environmental Quality and the Environmental Protection Agency with respect to the environmental effects of such project.

Nothing in this subsection exempts any such project from any requirement applicable to any such project under the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.], the Fish and Wildlife Coordination Act [16 U.S.C. 661 et seq.], the Endangered Species Act [16 U.S.C. 1531 et seq.], or any other provision of Federal law.

(c) Fish and wildlife facilities

The Commission shall encourage applicants for licenses for small hydroelectric power projects to make use of public funds and other assistance for the design and construction of fish and wildlife facilities which may be required in connection with any development of such project.

(d) Exemptions from licensing requirements in certain cases

The Commission may in its discretion (by rule or order) grant an exemption in whole or in part from the requirements (including the licensing requirements) of part I of the Federal Power Act [16 U.S.C. 791a et seq.] to small hydroelectric

power projects having a proposed installed capacity of 10,000 kilowatts or less, on a case-by-case basis or on the basis of classes or categories of projects, subject to the same limitations (to ensure protection for fish and wildlife as well as other environmental concerns) as those which are set forth in subsections (c) and (d) of section 30 of the Federal Power Act [16 U.S.C. 823a (c) and (d)] with respect to determinations made and exemptions granted under subsection (b) of such section 30 [16 U.S.C. 823a(b)]; and subsections (c) and (d) of such section 30 shall apply with respect to actions taken and exemptions granted under this subsection. Except as specifically provided in this subsection, the granting of an exemption to a project under this subsection shall in no case have the effect of waiving or limiting the application (to such project) of the second sentence of subsection (b) of this section.

§ 2708. Definitions

(a) For purposes of this chapter, the term—

(1) “small hydroelectric power project” means any hydroelectric power project which is located at the site of any existing dam, which uses the water power potential of such dam, and which has not more than 30,000 kilowatts of installed capacity;

(2) “electric cooperative” means any cooperative association eligible to receive loans under section 904 of title 7;

(3) “industrial development agency” means any agency which is permitted to issue obligations the interest on which is excludable from gross income under section 103 of title 26;

(4) “project costs” means the cost of acquisition¹ or construction of all facilities and services and the cost of acquisition of all land and interests in land used in the design and construction and operation of a small hydroelectric power project;

(5) “nonprofit organization” means any organization described in section 501(c)(3) or 501(c)(4) of title 26 and exempt from tax under section 501(a) of title 26 (but only with respect to a trade or business carried on by such organization which is not an unrelated trade or business, determined by applying section 513(a) of title 26 to such organization);

(6) “existing dam” means any dam, the construction of which was completed or on² before July 22, 2005, and which does not require any construction or enlargement of impoundment structures (other than repairs or reconstruction) in connection with the installation of any small hydroelectric power project;

(7) “municipality” has the meaning provided in section 796 of this title; and

(8) “person” has the meaning provided in section 796 of this title.

(b) The requirement in subsection (a)(1) that a project be located at the site of an existing dam in order to qualify as a small hydroelectric power project, and the other provisions of this chapter which require that a project be at or in connection with an existing dam (or utilize the potential of such dam) in order to be assisted under or included within such provisions, shall not be construed to exclude—

¹ So in original. Probably should be “acquisition”.

² So in original. Probably should be “on or”.
