

§ 286i. Stabilization loans by Bank; amendment to Articles of Agreement

The governor and executive director of the Bank appointed by the United States are directed to obtain promptly an official interpretation by the Bank as to its authority to make or guarantee loans for programs of economic reconstruction and the reconstruction of monetary systems, including long-term stabilization loans. If the Bank does not interpret its powers to include the making or guaranteeing of such loans, the governor of the Bank representing the United States is directed to propose promptly and support an amendment to the Articles of Agreement for the purpose of explicitly authorizing the Bank, after consultation with the Fund, to make or guarantee such loans. The President is authorized and directed to accept an amendment to that effect on behalf of the United States.

(July 31, 1945, ch. 339, § 12, 59 Stat. 516.)

§ 286j. Use of Fund resources

(a) Official interpretation of authority of Fund

The governor and executive director of the Fund appointed by the United States are directed to obtain promptly an official interpretation by the Fund as to whether its authority to use its resources extends beyond current monetary stabilization operations to afford temporary assistance to members in connection with seasonal, cyclical, and emergency fluctuations in the balance of payment of any member for current transactions, and whether it has authority to use its resources to provide facilities for relief, reconstruction, or armaments, or to meet a large or sustained outflow of capital on the part of any member.

(b) Proposal of amendment

If the interpretation by the Fund answers in the affirmative any of the questions stated in subsection (a), the governor of the Fund representing the United States is directed to propose promptly and support an amendment to the Articles of Agreement for the purpose of expressly negating such interpretation. The President is authorized and directed to accept an amendment to that effect on behalf of the United States.

§ 286k. Further promotion of international economic relations

(a) Congressional declaration of policy

In the realization that additional measures of international economic cooperation are necessary to facilitate the expansion and balanced growth of international trade and render most effective the operations of the Fund and the Bank, it is declared to be the policy of the United States to seek to bring about further agreement and cooperation among nations and international bodies, as soon as possible, on ways and means which will best reduce obstacles to and restrictions upon international trade, eliminate unfair trade practices, promote mutually advantageous commercial relations, and otherwise facilitate the expansion and balanced

growth of international trade and promote the stability of international economic relations. In considering the policies of the United States in foreign lending and the policies of the Fund and the Bank, particularly in conducting exchange transactions, the Council and the United States representatives on the Fund and the Bank shall give careful consideration to the progress which has been made in achieving such agreement and cooperation.

(b) Transmittal of information to Congressional committees

The President shall, upon the request of any committee of the Congress with legislative or oversight jurisdiction over monetary policy or the International Monetary Fund, provide to such committee any appropriate information relevant to that committee's jurisdiction which is furnished to any department or agency of the United States by the International Monetary Fund. The President shall comply with this provision consistent with United States membership obligations in the International Monetary Fund and subject to such limitations as are appropriate to the sensitive nature of the information.
