

compliance issued under Rule 1 is liable to a civil penalty of not more than \$5,000 for each violation.

(b) Liability of vessel for civil penalty; seizure of vessel

Every vessel subject to this chapter, other than a public vessel being used for noncommercial purposes, that is operated in violation of this chapter, or of any regulation issued thereunder, or in violation of a certificate of alternative compliance issued under Rule 1 is liable to a civil penalty of not more than \$5,000 for each violation, for which penalty the vessel may be seized and proceeded against in the district court of the United States of any district within which the vessel may be found.

(c) Assessment of civil penalty by Secretary; collection

The Secretary may assess any civil penalty authorized by this section. No such penalty may be assessed until the person charged, or the owner of the vessel charged, as appropriate, shall have been given notice of the violation involved and an opportunity for a hearing. For good cause shown, the Secretary may remit, mitigate, or compromise any penalty assessed. Upon the failure of the person charged, or the owner of the vessel charged, to pay an assessed penalty, as it may have been mitigated or compromised, the Secretary may request the Attorney General to commence an action in the appropriate district court of the United States for collection of the penalty as assessed, without regard to the amount involved, together with such other relief as may be appropriate.

(d) Withholding of clearance

(1) If any owner, operator, or individual in charge of a vessel is liable for a penalty under this section, or if reasonable cause exists to believe that the owner, operator, or individual in charge may be subject to a penalty under this section, the Secretary of the Treasury, upon the request of the Secretary, shall with respect to such vessel refuse or revoke any clearance required by section 60105 of title 46.

(2) Clearance or a permit refused or revoked under this subsection may be granted upon filing of a bond or other surety satisfactory to the Secretary.

CHAPTER 35—ARTIFICIAL REEFS

Sec.	
2101.	Congressional statement of findings and purpose.
2102.	Establishment of standards.
2103.	National artificial reef plan.
2104.	Permits for construction and management of artificial reefs.
2105.	Definitions.
2106.	Savings clauses.

§ 2101. Congressional statement of findings and purpose

(a) The Congress finds that—

(1) although fishery products provide an important source of protein and industrial products for United States consumption, United States fishery production annually falls far short of satisfying United States demand;

(2) overfishing and the degradation of vital fishery resource habitats have caused a reduction in the abundance and diversity of United States fishery resources;

(3) escalated energy costs have had a negative effect on the economics of United States commercial and recreational fisheries;

(4) commercial and recreational fisheries are a prominent factor in United States coastal economies and the direct and indirect returns to the United States economy from commercial and recreational fishing expenditures are threefold; and

(5) properly designed, constructed, and located artificial reefs in waters covered under this chapter can enhance the habitat and diversity of fishery resources; enhance United States recreational and commercial fishing opportunities; increase the production of fishery products in the United States; increase the energy efficiency of recreational and commercial fisheries; and contribute to the United States and coastal economies.

(b) The purpose of this chapter is to promote and facilitate responsible and effective efforts to

establish artificial reefs in waters covered under this chapter.

SHORT TITLE

Pub. L. 98-623, title II, §201, Nov. 8, 1984, 98 Stat. 3394, provided that: “This title [enacting this chapter and section 1220d of Title 16, Conservation, and amending sections 1220 to 1220c of Title 16] may be cited as the ‘National Fishing Enhancement Act of 1984.’”

§ 2102. Establishment of standards

Based on the best scientific information available, artificial reefs in waters covered under this chapter shall be sited and constructed, and subsequently monitored and managed in a manner which will—

- (1) enhance fishery resources to the maximum extent practicable;
- (2) facilitate access and utilization by United States recreational and commercial fishermen;
- (3) minimize conflicts among competing uses of waters covered under this chapter and the resources in such waters;
- (4) minimize environmental risks and risks to personal health and property; and
- (5) be consistent with generally accepted principles of international law and shall not create any unreasonable obstruction to navigation.

(Pub. L. 98-623, title II, §203, Nov. 8, 1984, 98 Stat. 3395.)

§ 2103. National artificial reef plan

Not later than one year after November 8, 1984, the Secretary of Commerce, in consultation with the Secretary of the Interior, the Secretary of Defense, the Administrator of the Environmental Protection Agency, the Secretary of the Department in which the Coast Guard is operating, the Regional Fishery Management¹ Councils, interested States, Interstate Fishery Commissions, and representatives of the private sector, shall develop and publish a long-term plan which will meet the purpose of this chapter and be consistent with the standards established under section 2102 of this title. The plan must include—

- (1) geographic, hydrographic, geologic, biological, ecological, social, economic, and other criteria for siting artificial reefs;
- (2) design, material, and other criteria for constructing artificial reefs;
- (3) mechanisms and methodologies for monitoring the compliance of artificial reefs with

the requirements of permits issued under section 2104 of this title;

(4) mechanisms and methodologies for managing the use of artificial reefs;

(5) a synopsis of existing information on artificial reefs and needs for further research on artificial reef technology and management strategies; and

(6) an evaluation of alternatives for facilitating the transfer of artificial reef construction materials to persons holding permits issued pursuant to section 2104 of this title, including, but not limited to, credits for environmental mitigation and modified tax obligations.

(Pub. L. 98-623, title II, §204, Nov. 8, 1984, 98 Stat. 3395.)

TRANSFER OF FUNCTIONS

For transfer of authorities, functions, personnel, and assets of the Coast Guard, including the authorities and functions of the Secretary of Transportation relating thereto, to the Department of Homeland Security, and for treatment of related references, see sections 468(b), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

§ 2104. Permits for construction and management of artificial reefs

(a) Secretarial action on permits

In issuing a permit for artificial reefs under section 403 of this title, section 1344 of this title, or section 1333(e) of title 43, the Secretary of the Army (hereinafter in this section referred to as the “Secretary”) shall—

- (1) consult with and consider the views of appropriate Federal agencies, States, local governments, and other interested parties;
- (2) ensure that the provisions for siting, constructing, monitoring, and managing the artificial reef are consistent with the criteria and standards established under this chapter;
- (3) ensure that the title to the artificial reef construction material is unambiguous, and that responsibility for maintenance and the financial ability to assume liability for future damages are clearly established; and
- (4) consider the plan developed under section 2103 of this title and notify the Secretary of Commerce of any need to deviate from that plan.

(b) Terms and conditions of permits

(1) Each permit issued by the Secretary subject to this section shall specify the design and location for construction of the artificial reef and the types and quantities of materials that may be used in constructing such artificial reef. In addition, each such permit shall specify such terms and conditions for the construction, operation, maintenance, monitoring, and managing the use of the artificial reef as are necessary for compliance with all applicable provisions of law and as are necessary to ensure the protection of the environment and human safety and property.

(2) Before issuing a permit under section 1342 of this title for any activity relating to the
