the equipment of the non-Federal interest, except for damage due to the fault or negligence of a contractor of the Federal Government.

## (e) Reimbursement eligibility limitations

Costs that are eligible for reimbursement under this section are the costs of maintenance activities directly related to the costs associated with operation and maintenance of a dredge based on the lesser of—

- (1) the costs associated with operation and maintenance of the dredge during the period of time that the dredge is being used in the performance of work for the Federal Government during a given fiscal year; or
- (2) the actual fiscal year Federal appropriations that are made available for the portion of the maintenance activities for which the dredge was used.

#### (f) Audit

Not earlier than 5 years after December 16, 2016, the Secretary may conduct an audit on any maintenance activities for an authorized navigation project (or a separable element of an authorized navigation project) carried out under this section to determine if permitting a non-Federal interest to carry out maintenance activities under this section has resulted in—

- (1) improved reliability and safety for navigation; and
  - (2) cost savings to the Federal Government.

# (g) Termination of authority

The authority of the Secretary under this section terminates on the date that is 10 years after December 16, 2016.

# § 2326g. Beneficial use of dredged material; dredged material management plans

# (a) National policy on the beneficial use of dredged material

#### (1) In general

It is the policy of the United States for the Corps of Engineers to maximize the beneficial use, in an environmentally acceptable manner, of suitable dredged material obtained from the construction or operation and maintenance of water resources development projects.

## (2) Placement of dredged materials

### (A) In general

In evaluating the placement of dredged material obtained from the construction or operation and maintenance of water resources development projects, the Secretary shall consider—

- (i) the suitability of the dredged material for a full range of beneficial uses; and
- (ii) the economic and environmental benefits, efficiencies, and impacts (including the effects on living coral) of using the dredged material for beneficial uses, including, in the case of beneficial use activities that involve more than one water resources development project, the benefits, efficiencies, and impacts that result from the combined activities.

# (B) Calculation of Federal standard

## (i) Determination

The economic benefits and efficiencies from the beneficial use of dredged material considered by the Secretary under subparagraph (A) shall be included in any determination relating to the "Federal standard" by the Secretary under section 335.7 of title 33, Code of Federal Regulations, for the placement or disposal of such material.

# (ii) Reports

The Secretary shall submit to Congress—
