

building benchmarking and energy information disclosure;

(B) information on buildings that have disclosed energy ratings and certifications; and

(C) energy-related information on buildings provided voluntarily by the owners of the buildings, only in an anonymous form unless the owner provides otherwise.

(2) Complementary programs

The database maintained pursuant to paragraph (1) shall complement and not duplicate the functions of the Environmental Protection Agency's Energy Star Portfolio Manager tool.

(d) Input from stakeholders

The Secretary of Energy shall seek input from stakeholders to maximize the effectiveness of the actions taken under this section.

(e) Report

Not later than 2 years after April 30, 2015, and every 2 years thereafter, the Secretary of Energy shall submit to the Committee on Energy and Commerce of the House of Representatives and Committee on Energy and Natural Resources of the Senate a report on the progress made in complying with this section.

(Pub. L. 114-11, title III, §301, Apr. 30, 2015, 129 Stat. 189.)

Editorial Notes

CODIFICATION

Section is comprised of section 301 of Pub. L. 114-11. Subsec. (a) of section 301 of Pub. L. 114-11 amended section 17091 of this title.

Section was enacted as part of the Energy Efficiency Improvement Act of 2015, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

§ 17064. Smart building acceleration

(a) Definitions

In this section:

(1) Department

The term "Department" means the Department of Energy.

(2) Program

The term "program" means the Federal Smart Building Program established under subsection (b)(1).

(3) Secretary

The term "Secretary" means the Secretary of Energy.

(4) Smart building

The term "smart building" means a building, or collection of buildings, with an energy system that—

(A) is flexible and automated;

(B) has extensive operational monitoring and communication connectivity, allowing remote monitoring and analysis of all building functions;

(C) takes a systems-based approach in integrating the overall building operations for control of energy generation, consumption, and storage;

(D) communicates with utilities and other third-party commercial entities, if appropriate;

(E) protects the health and safety of occupants and workers; and

(F) incorporates cybersecurity best practices.

(5) Smart building accelerator

The term "smart building accelerator" means an initiative that is designed to demonstrate specific innovative policies and approaches—

(A) with clear goals and a clear timeline; and

(B) that, on successful demonstration, would accelerate investment in energy efficiency.

(b) Federal Smart Building Program

(1) Establishment

Not later than 1 year after December 27, 2020, the Secretary shall, in consultation with the Administrator of General Services, establish a program to be known as the "Federal Smart Building Program"—

(A) to implement smart building technology; and

(B) to demonstrate the costs and benefits of smart buildings.

(2) Selection

(A) In general

The Secretary shall coordinate the selection of not fewer than 1 building from among each of several key Federal agencies, as described in paragraph (4), to compose an appropriately diverse set of smart buildings based on size, type, and geographic location.

(B) Inclusion of commercially operated buildings

In making selections under subparagraph (A), the Secretary may include buildings that are owned by the Federal Government but are commercially operated.

(3) Targets

Not later than 18 months after December 27, 2020, the Secretary shall establish targets for the number of smart buildings to be commissioned and evaluated by key Federal agencies by 3 years and 6 years after December 27, 2020.

(4) Federal agency described

The key Federal agencies referred to paragraph (2)(A) shall include buildings operated by—

(A) the Department of the Army;

(B) the Department of the Navy;

(C) the Department of the Air Force;

(D) the Department;

(E) the Department of the Interior;

(F) the Department of Veterans Affairs;

and

(G) the General Services Administration.

(5) Requirement

In implementing the program, the Secretary shall leverage existing financing mechanisms including energy savings performance contracts, utility energy service contracts, and annual appropriations.

(6) Evaluation

Using the guidelines of the Federal Energy Management Program relating to whole-build-

ing evaluation, measurement, and verification, the Secretary shall evaluate the costs and benefits of the buildings selected under paragraph (2), including an identification of—

(A) which advanced building technologies—

- (i) are most cost-effective; and
- (ii) show the most promise for—
 - (I) increasing building energy savings;
 - (II) increasing service performance to building occupants;
 - (III) reducing environmental impacts;
- and
- (IV) establishing cybersecurity; and

(B) any other information the Secretary determines to be appropriate.

(7) Awards

The Secretary may expand awards made under the Federal Energy Management Program and the Better Building Challenge to recognize specific agency achievements in accelerating the adoption of smart building technologies.

(c) Survey of private sector smart buildings

(1) Survey

The Secretary shall conduct a survey of privately owned smart buildings throughout the United States, including commercial buildings, laboratory facilities, hospitals, multi-family residential buildings, and buildings owned by nonprofit organizations and institutions of higher education.

(2) Selection

From among the smart buildings surveyed under paragraph (1), the Secretary shall select not fewer than 1 building each from an appropriate range of building sizes, types, and geographic locations.

(3) Evaluation

Using the guidelines of the Federal Energy Management Program relating to whole-building evaluation, measurement, and verification, the Secretary shall evaluate the costs and benefits of the buildings selected under paragraph (2), including an identification of—

(A) which advanced building technologies and systems—

- (i) are most cost-effective; and
- (ii) show the most promise for—
 - (I) increasing building energy savings;
 - (II) increasing service performance to building occupants;
 - (III) reducing environmental impacts;
- and
- (IV) establishing cybersecurity; and

(B) any other information the Secretary determines to be appropriate.

(d) Better building challenge

As part of the Better Building Challenge of the Department, the Secretary, in consultation with major private sector property owners, shall develop smart building accelerators to demonstrate innovative policies and approaches that will accelerate the transition to smart buildings

in the public, institutional, and commercial buildings sectors.

(e) Omitted

(f) Report

Not later than 2 years after December 27, 2020, and every 2 years thereafter until a total of 3 reports have been made, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce and the Committee on Science, Space, and Technology of the House of Representatives a report on—

(1) the establishment of the Federal Smart Building Program and the evaluation of Federal smart buildings under subsection (b);

(2) the survey and evaluation of private sector smart buildings under subsection (c); and

(3) any recommendations of the Secretary to further accelerate the transition to smart buildings.

(Pub. L. 116–260, div. Z, title I, §1007, Dec. 27, 2020, 134 Stat. 2433.)

Editorial Notes

CODIFICATION

Section is comprised of section 1007 of Pub. L. 116–260. Subsec. (e) of section 1007 of Pub. L. 160–260 enacted section 17086 of this title.

Section was enacted as part of the Energy Act of 2020, and not as part of the Energy Independence and Security Act of 2007 which comprises this chapter.

PART A—RESIDENTIAL BUILDING EFFICIENCY

§ 17071. Energy Code improvements applicable to manufactured housing

(a) Establishment of standards

(1) In general

Not later than 4 years after December 19, 2007, the Secretary shall by regulation establish standards for energy efficiency in manufactured housing.

(2) Notice, comment, and consultation

Standards described in paragraph (1) shall be established after—

(A) notice and an opportunity for comment by manufacturers of manufactured housing and other interested parties; and

(B) consultation with the Secretary of Housing and Urban Development, who may seek further counsel from the Manufactured Housing Consensus Committee.

(b) Requirements

(1) International Energy Conservation Code

The energy conservation standards established under this section shall be based on the most recent version of the International Energy Conservation Code (including supplements), except in cases in which the Secretary finds that the code¹ is not cost-effective, or a more stringent standard would be more cost-effective, based on the impact of the code¹ on the purchase price of manufactured housing

¹ So in original. Probably should be “Code”.
