AMENDMENTS

2000—Pub. L. 106-469 inserted section catchline.

§ 6216. Annual Home Heating Readiness Reports

(a) In general

On or before September 1 of each year, the Secretary, acting through the Administrator of the Energy Information Agency, shall submit to Congress a Home Heating Readiness Report on the readiness of the natural gas, heating oil and propane industries to supply fuel under various weather conditions, including rapid decreases in temperature.

(b) Contents

The Home Heating Readiness Report shall include—

(1) estimates of the consumption, expenditures, and average price per gallon of heating oil and propane and thousand cubic feet of natural gas for the upcoming period of October through March for various weather conditions, with special attention to extreme weather, and various regions of the country;

(2) an evaluation of—

(A) global and regional crude oil and refined product supplies;

(B) the adequacy and utilization of refinery capacity;

(C) the adequacy, utilization, and distribution of regional refined product storage capacity;

(D) weather conditions;

(E) the refined product transportation system;

(F) market inefficiencies; and

(G) any other factor affecting the functional capability of the heating oil industry and propane industry that has the potential to affect national or regional supplies and prices;

(3) recommendations on steps that the Federal, State, and local governments can take to prevent or alleviate the impact of sharp and sustained increases in the price of natural gas, heating oil, and propane; and

(4) recommendations on steps that companies engaged in the production, refining, storage, transportation of heating oil or propane, or any other activity related to the heating oil industry or propane industry, can take to prevent or alleviate the impact of sharp and sustained increases in the price of heating oil and propane.

(c) Information requests

The Secretary may request information necessary to prepare the Home Heating Readiness Report from companies described in subsection (b)(4).

(Pub. L. 94-163, title I, §108, as added Pub. L. 106-469, title VI, §605(a), Nov. 9, 2000, 114 Stat. 2042.)

§ 6217. Scientific inventory of oil and gas reserves

(a) In general

The Secretary of the Interior, in consultation with the Secretaries of Agriculture and Energy, shall conduct an inventory of all onshore Federal lands. The inventory shall identify—

(1) the United States Geological Survey estimates of the oil and gas resources underlying these lands;

(2) the extent and nature of any restrictions or impediments to the development of the resources, including—

(A) impediments to the timely granting of leases;

(B) post-lease restrictions, impediments, or delays on development for conditions of approval, applications for permits to drill, or processing of environmental permits; and

(C) permits or restrictions associated with transporting the resources for entry into commerce; and

(3) the quantity of resources not produced or introduced into commerce because of the restrictions.

(b) Regular update

Once completed, the USGS resource estimates and the surface availability data as provided in subsection (a)(2) shall be regularly updated and made publicly available.

(c) Inventory

The inventory shall be provided to the Committee on Resources of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate within 2 years after November 9, 2000.

(d) Assessments

Using the inventory, the Secretary of Energy shall make periodic assessments of economically recoverable resources accounting for a range of parameters such as current costs, commodity prices, technology, and regulations.
