

(e) Consideration of problems and developments affecting more than one Federal agency; recommendations

The Council shall consider problems and developments in the fields of science, engineering, and technology and related activities affecting more than one Federal agency, and shall recommend policies and other measures designed to—

- (1) provide more effective planning and administration of Federal scientific, engineering, and technological programs,
- (2) identify research needs including areas requiring additional emphasis,
- (3) achieve more effective utilization of the scientific, engineering, and technological resources and facilities of Federal agencies, including the elimination of unwarranted duplication, and
- (4) further international cooperation in science, engineering, and technology.

(f) Other advisory duties

The Council shall perform such other related advisory duties as shall be assigned by the President or by the Chairman.

(g) Assistance to Council by agency represented thereon

For the purpose of carrying out the provisions of this section, each Federal agency represented on the Council shall furnish necessary assistance to the Council. Such assistance may include—

- (1) detailing employees to the Council to perform such functions, consistent with the purposes of this section, as the Chairman may assign to them, and
- (2) undertaking, upon request of the Chairman, such special studies for the Council as come within the functions herein assigned.

(h) Establishment of subcommittees and panels

For the purpose of conducting studies and making reports as directed by the Chairman, standing subcommittees and panels of the Council may be established.

§ 6686. Science and Technology Policy Institute

(a) Establishment

There shall be established a federally funded research and development center to be known as the "Science and Technology Policy Institute" (hereinafter in this section referred to as the "Institute").

(b) Incorporation

The Institute shall be—

- (1) administered as a separate entity by an organization currently managing another federally funded research and development center; or
- (2) incorporated as a nonprofit membership corporation.

(c) Duties

The duties of the Institute shall include the following:

- (1) The assembly of timely and authoritative information regarding significant developments and trends in science and technology research and development in the United States and abroad, including information relating to the technologies identified in the most recent biennial report submitted to Congress by the

President pursuant to section 6683(d)¹ of this title and developing and maintaining relevant informational and analytical tools.

(2) Analysis and interpretation of the information referred to in paragraph (1) with particular attention to the scope and content of the Federal science and technology research and development portfolio as it affects inter-agency and national issues.

(3) Initiation of studies and analysis of alternatives available for ensuring the long-term strength of the United States in the development and application of science and technology, including appropriate roles for the Federal Government, State governments, private industry, and institutions of higher education in the development and application of science and technology.

(4) Provision, upon the request of the Director of the Office of Science and Technology Policy, of technical support and assistance—

(A) to the committees and panels of the President's Council of Advisers on Science and Technology that provide advice to the Executive branch on science and technology policy; and

(B) to the interagency committees and panels of the Federal Government concerned with science and technology.

(d) Consultation on Institute activities

In carrying out the duties referred to in subsection (c), personnel of the Institute shall—

(1) consult widely with representatives from private industry, institutions of higher education, and nonprofit institutions; and

(2) to the maximum extent practicable, incorporate information and perspectives derived from such consultations in carrying out such duties.

(e) Annual reports

The Institute shall submit to the President an annual report on the activities of the Institute under this section. Each report shall be in accordance with requirements prescribed by the President.

(f) Sponsorship

(1) The Director of the National Science Foundation shall be the sponsor of the Institute.

(2) The Director of the National Science Foundation, in consultation with the Director of Office of Science and Technology Policy, shall enter into a sponsoring agreement with respect to the Institute. The sponsoring agreement shall require that the Institute carry out such functions as the Director of Office of Science and Technology Policy may specify consistent with the duties referred to in subsection (c). The sponsoring agreement shall be consistent with the general requirements prescribed for such a sponsoring agreement by the Administrator for Federal Procurement Policy.
