

grants to State regulatory authorities in an amount not to exceed \$250,000 per authority, for purposes of encouraging demand-side management including energy conservation, energy efficiency and load management techniques and for meeting the requirements of paragraphs (7), (8), and (9) of section 2621(d) of title 16 and as a means of meeting gas supply needs and to meet the requirements of paragraphs (3) and (4) of section 3203(b) of title 15. Such grants may be utilized by a State regulatory authority to provide financial assistance to nonprofit subgrantees of the Department of Energy's Weatherization Assistance Program in order to facilitate participation by such subgrantees in proceedings of such regulatory authority to examine energy conservation, energy efficiency, or other demand-side management programs.

(b) Plan

A State regulatory authority wishing to receive a grant under this section shall submit a plan to the Secretary that specifies the actions such authority proposes to take that would achieve the purposes of this section.

(c) Secretarial action

(1) In determining whether, and in what amount, to provide a grant to a State regulatory authority under this section the Secretary shall consider, in addition to other appropriate factors, the actions proposed by the State regulatory authority to achieve the purposes of this section and to consider implementation of the ratemaking standards established in—

(A) paragraphs (7), (8) and (9) of section 2621(d) of title 16; or

(B) paragraphs (3) and (4) of section 3203(b) of title 15.

(2) Such actions—

(A) shall include procedures to facilitate the participation of grantees and nonprofit subgrantees of the Department of Energy's Weatherization Assistance Program in proceedings of such regulatory authorities examining demand-side management programs; and

(B) shall provide for coverage of the cost of such grantee and subgrantees' participation in such proceedings.

(d) Recordkeeping

Each State regulatory authority that receives a grant under this section shall keep such records as the Secretary shall require.

(e) "State regulatory authority" defined

For purposes of this section, the term "State regulatory authority" shall have the same meaning as provided by section 2602 of title 16 in the case of electric utilities, and such term shall have the same meaning as provided by section 3202 of title 15 in the case of gas utilities, except that in the case of any State without a state-wide ratemaking authority, such term shall mean the State energy office.

(f) Authorization

There are authorized to be appropriated \$5,000,000 for each of the fiscal years 1994, 1995 and 1996 to carry out the purposes of this section.

(Pub. L. 102-486, title I, §112, Oct. 24, 1992, 106 Stat. 2797.)

Editorial Notes

CODIFICATION

Section was enacted as part of the Energy Policy Act of 1992, and not as part of the Energy Conservation and Production Act which comprises this chapter.

§ 6808. Authorization of appropriations

There are authorized to be appropriated—

(1) not to exceed \$40,000,000 for each of the fiscal years 1979 and 1980 to carry out section 6807 of this title (relating to State utility regulatory assistance);

(2) not to exceed \$10,000,000 for each of the fiscal years 1979 and 1980 to carry out section 6805 of this title (relating to State offices of consumer services); and

(3) not to exceed \$8,000,000 for the fiscal year 1979, and \$10,000,000 for the fiscal year 1980 to carry out section 6804(1)(B) of this title (relating to innovative rate structures).

(Pub. L. 94-385, title II, §208, as added Pub. L. 95-617, title II, §142, Nov. 9, 1978, 92 Stat. 3134.)

SUBCHAPTER II—ENERGY CONSERVATION STANDARDS FOR NEW BUILDINGS

§ 6831. Congressional findings and purpose

(a) The Congress finds that—

(1) large amounts of fuel and energy are consumed unnecessarily each year in heating, cooling, ventilating, and providing domestic hot water for newly constructed residential and commercial buildings because such buildings lack adequate energy conservation features;

(2) Federal voluntary performance standards for newly constructed buildings can prevent such waste of energy, which the Nation can no longer afford in view of its current and anticipated energy shortage;

(3) the failure to provide adequate energy conservation measures in newly constructed buildings increases long-term operating costs that may affect adversely the repayment of, and security for, loans made, insured, or guaranteed by Federal agencies or made by federally insured or regulated instrumentalities; and

(4) State and local building codes or similar controls can provide an existing means by which to assure, in coordination with other building requirements and with a minimum of Federal interference in State and local transactions, that newly constructed buildings contain adequate energy conservation features.

(b) The purposes of this subchapter, therefore, are to—

(1) redirect Federal policies and practices to assure that reasonable energy conservation features will be incorporated into new commercial and residential buildings receiving Federal financial assistance;

(2) provide for the development and implementation, as soon as practicable, of voluntary performance standards for new residential and commercial buildings which are designed to achieve the maximum practicable improvements in energy efficiency and increases in the use of nondepletable sources of energy; and
