SUBCHAPTER I—DECLARATION OF
FINDINGS AND PURPOSES**§ 7111. Congressional findings**

The Congress of the United States finds that—

(1) the United States faces an increasing shortage of nonrenewable energy resources;

(2) this energy shortage and our increasing dependence on foreign energy supplies present a serious threat to the national security of the United States and to the health, safety and welfare of its citizens;

(3) a strong national energy program is needed to meet the present and future energy needs of the Nation consistent with overall national economic, environmental and social goals;
