

(C) equipment and software that enhance airspace control procedures or assist in en route surveillance, including oceanic and offshore flight tracking.

(2) PROJECT SPONSOR.—The term “project sponsor” means any major user of the national airspace system, as determined by the Secretary, including a public-use airport or a joint venture between a public-use airport and one or more air carriers.

(f) TRANSFERS OF EQUIPMENT.—Notwithstanding any other provision of law, and upon agreement by the Administrator, a project sponsor may transfer, without consideration, to the Federal Aviation Administration, facilities, equipment, or automation tools, the purchase of which was assisted by a grant made under this section, if such facilities, equipment or tools meet Federal Aviation Administration operation and maintenance criteria.

(g) GUIDELINES.—The Administrator shall issue advisory guidelines on the implementation of the program. The guidelines shall not be subject to administrative rulemaking requirements under subchapter II of chapter 5 of title 5.

(Added Pub. L. 108–176, title I, §183(a), Dec. 12, 2003, 117 Stat. 2516.)

Statutory Notes and Related Subsidiaries

EFFECTIVE DATE

Section applicable only to fiscal years beginning after Sept. 30, 2003, except as otherwise specifically provided, see section 3 of Pub. L. 108–176, set out as an Effective Date of 2003 Amendment note under section 106 of this title.

§ 44518. Advanced Materials Center of Excellence

(a) IN GENERAL.—The Administrator of the Federal Aviation Administration shall continue operation of the Advanced Materials Center of Excellence (referred to in this section as the “Center”) under its structure as in effect on March 1, 2016, which shall focus on applied research and training on the durability and maintainability of advanced materials in transport airframe structures.

(b) RESPONSIBILITIES.—The Center shall—

(1) promote and facilitate collaboration among academia, the Transportation Division of the Federal Aviation Administration, and the commercial aircraft industry, including manufacturers, commercial air carriers, and suppliers; and

(2) establish goals set to advance technology, improve engineering practices, and facilitate continuing education in relevant areas of study.

(c) AUTHORIZATION OF APPROPRIATIONS.—Out of amounts appropriated under section 48102(a), the Administrator may expend not more than \$10,000,000 for each of fiscal years 2021 through 2023 to carry out this section. Amounts appropriated under the preceding sentence for each fiscal year shall remain available until expended.

(Added Pub. L. 115–254, div. B, title VII, §762(a), Oct. 5, 2018, 132 Stat. 3428; amended Pub. L. 116–260, div. V, title I, §134, Dec. 27, 2020, 134 Stat. 2356.)

AMENDMENTS

2020—Subsec. (c). Pub. L. 116–260 added subsec. (c).

§ 44519. Certification personnel continuing education and training

(a) IN GENERAL.—The Administrator of the Federal Aviation Administration shall—

(1) develop a program for regular recurrent training of engineers, inspectors, and other subject-matter experts employed in the Aircraft Certification Service of the Administration in accordance with the training strategy developed pursuant to section 231 of the FAA Reauthorization Act of 2018 (Public Law 115–254; 132 Stat. 3256);

(2) to the maximum extent practicable, implement measures, including assignments in multiple divisions of the Aircraft Certification Service, to ensure that such engineers and other subject-matter experts in the Aircraft Certification Service have access to diverse professional opportunities that expand their knowledge and skills;

(3) develop a program to provide continuing education and training to Administration personnel who hold positions involving aircraft certification and flight standards, including human factors specialists, engineers, flight test pilots, inspectors, and, as determined appropriate by the Administrator, industry personnel who may be responsible for compliance activities including designees; and

(4) in consultation with outside experts, develop—

(A) an education and training curriculum on current and new aircraft technologies, human factors, project management, and the roles and responsibilities associated with oversight of designees; and

(B) recommended practices for compliance with Administration regulations.

(b) IMPLEMENTATION.—The Administrator shall, to the maximum extent practicable, ensure that actions taken pursuant to subsection (a)—

(1) permit engineers, inspectors, and other subject matter experts to continue developing knowledge of, and expertise in, new and emerging technologies in systems design, flight controls, principles of aviation safety, system oversight, and certification project management;

(2) minimize the likelihood of an individual developing an inappropriate bias toward a designer or manufacturer of aircraft, aircraft engines, propellers, or appliances;

(3) are consistent with any applicable collective bargaining agreements; and

(4) account for gaps in knowledge and skills (as identified by the Administrator in consultation with the exclusive bargaining representatives certified under section 7111 of title 5, United States Code) between Administration employees and private-sector employees for each group of Administration employees covered under this section.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Administrator, \$10,000,000 for each of fiscal years 2021 through 2023 to carry out this section. Amounts
