(n) Incentive clauses in chemical demilitarization contracts

(1)(A) The Secretary of Defense may, for the purpose specified in paragraph (B), authorize the inclusion of an incentives clause in any contract for the destruction of the United States stockpile of lethal chemical agents and munitions carried out pursuant to subsection (a).

(B) The purpose of a clause referred to in subparagraph (A) is to provide the contractor for a chemical demilitarization facility an incentive to accelerate the safe elimination of the United States chemical weapons stockpile and to reduce the total cost of the Chemical Demilitarization Program by providing incentive payments for the early completion of destruction operations and the closure of such facility.

(2)(A) An incentives clause under this subsection shall permit the contractor for the chemical demilitarization facility concerned the opportunity to earn incentive payments for the completion of destruction operations and facility closure activities within target incentive ranges specified in such clause.

(B) The maximum incentive payment under an incentives clause with respect to a chemical demilitarization facility may not exceed the following amounts:

(i) In the case of an incentive payment for the completion of destruction operations within the target incentive range specified in such clause, \$110,000,000.

(C) An incentives clause in a contract under this section shall specify the target incentive ranges of costs for completion of destruction operations and facility closure activities, respectively, as jointly agreed upon by the contracting officer and the contractor concerned. An incentives clause shall require a proportionate reduction in the maximum incentive payment amounts in the event that the contractor exceeds an agreed-upon target cost if such excess costs are the responsibility of the contractor.

(D) The amount of the incentive payment earned by a contractor for a chemical demilitarization facility under an incentives clause under this subsection shall be based upon a determination by the Secretary on how early in the target incentive range specified in such

clause destruction operations or facility closure activities, as the case may be, are completed.

(E) The provisions of any incentives clause under this subsection shall be consistent with the obligation of the Secretary of Defense under subsection (d)(1)(A), to provide for maximum protection for the environment, the general public, and the personnel who are involved in the destruction of the lethal chemical agents and munitions.

(F) In negotiating the inclusion of an incentives clause in a contract under this subsection, the Secretary may include in such clause such additional terms and conditions as the Secretary considers appropriate.

(3)(A) No payment may be made under an incentives clause under this subsection unless the Secretary determines that the contractor concerned has satisfactorily performed its duties under such incentives clause.

(B) An incentives clause under this subsection shall specify that the obligation of the Government to make payment under such incentives clause is subject to the availability of appropriations for that purpose. Amounts appropriated for Chemical Agents and Munitions Destruction, Defense, shall be available for payments under incentives clauses under this subsection.

(o) Supplemental destruction technologies

In determining the technologies to supplement the neutralization destruction of the stockpile of lethal chemical agents and munitions at Pueblo Chemical Depot, Colorado, and Blue Grass Army Depot, Kentucky, the Secretary of Defense may consider the following:

(1) Explosive Destruction Technologies.

SENSE OF CONGRESS ON COMPLETION OF DESTRUCTION OF UNITED STATES CHEMICAL WEAPONS STOCKPILE

Pub. L. 110-181, div. A, title IX, §922, Jan. 28, 2008, 122 Stat. 282, as amended by Pub. L. 111-383, div. A, title XIV, §1421(b)(10), Jan. 7, 2011, 124 Stat. 4420, provided that:

“(a) FINDINGS.—Congress makes the following findings:

“(1) The Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, done at Paris on January 13, 1993 (commonly referred to as the ‘Chemical Weapons Convention’), requires that destruction of the entire United States chemical weapons stockpile be completed by not later than April 29, 2007.

“(2) In 2006, under the terms of the Chemical Weapons Convention, the United States requested and received a one-time, 5-year extension of its chemical weapons destruction deadline to April 29, 2012.

“(3) On April 10, 2006, the Secretary of Defense notified Congress that the United States would not meet even the extended deadline under the Chemical Weapons Convention for destruction of the United States chemical weapons stockpile, but would ‘continue working diligently to minimize the time to complete destruction without sacrificing safety and security’ and would also ‘continue requesting resources needed to complete destruction as close to April 2012 as practicable’.

“(4) The United States chemical demilitarization program has met its one percent, 20 percent, and extended 45 percent destruction deadlines under the Chemical Weapons Convention.

“(5) Destroying the remaining stockpile of United States chemical weapons is imperative for public safety and homeland security, and doing so by April 2012, in accordance with the current destruction deadline provided under the Chemical Weapons Convention, is required by United States law.

“(6) The elimination of chemical weapons anywhere they exist in the world, and the prevention of their proliferation, is of utmost importance to the national security of the United States.

“(7) Section 921(b)(3) of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364; 120 Stat. 2359) contained a sense of Congress urging the Secretary of Defense to ensure the elimination of the United States chemical weapons stockpile in the shortest time possible, consistent with the requirement to protect public health, safety, and the environment.

“(8) Section 921(b)(4) of that Act contained a sense of Congress urging the Secretary of Defense to propose a credible treatment and disposal process with the support of affected communities. In this regard, any such process should provide for sufficient communication and consultation between representatives of the Department of Defense and representatives of affected States and communities.

“(b) SENSE OF CONGRESS.—It is the sense of Congress that—

“(1) the United States is, and must remain, committed to making every effort to safely dispose of its entire chemical weapons stockpile by April 2012, the current destruction deadline provided under the Chemical Weapons Convention, or as soon thereafter as possible, and must carry out all of its other obligations under the Convention; and

“(2) the Secretary of Defense should make every effort to plan for, and to request in the annual budget of the President submitted to Congress adequate funding to complete, the elimination of the United States chemical weapons stockpile in accordance with United States obligations under the Chemical Weapons Convention and in a manner that will protect public health, safety, and the environment, as required by law.
