§ 8113. Community Wood Energy and Wood Innovation Program

(a) Definitions

In this section:

(1) Community wood energy system

(A) In general

The term “community wood energy system” means an energy system that—

(i) produces thermal energy or combined thermal energy and electricity where thermal is the primary energy output;

(ii) services public facilities owned or operated by State or local governments (including schools, town halls, libraries, and other public buildings) or private or non-profit facilities (including commercial and business facilities, such as hospitals, office buildings, apartment buildings, and manufacturing and industrial buildings); and

(iii) uses woody biomass, including residuals—

(I) that have not been adulterated with glue or other chemical treatments from wood processing facilities, as the primary fuel; and

(II) for which the use of that biomass for energy production does not cause conversion of forests to nonforest use.
