No standards established or amendments or revocations of standards under this chapter shall become effective less than one calendar year after promulgation thereof, unless in the judgment of the Secretary, the public health, interest, or safety require that they become effective sooner.

(2)(A)(i) If the Secretary determines that the establishment or amendment of standards regarding cleanliness conditions of wheat, corn, barley, sorghum and soybeans that meet the requirements for grade number 3 or better (as set forth in subparagraph (B)) would—

(I) enhance the competitiveness of exports of wheat, corn, barley, sorghum and soybeans from the United States with wheat, corn, barley, sorghum and soybean exports marketed by other major exporters;

(II) result in the maintenance or expansion of the United States export market share for wheat, corn, barley, sorghum and soybeans;

(I) consider technical constraints, economic benefits and costs to producers and industry, the price competitiveness of United States agricultural production, and levels of cleanliness met by major competing nations that export wheat, corn, barley, sorghum and soybeans;

(II) promulgate regulations after providing for notice and an opportunity for public comment; and

(III) phase in any requirements for cleanliness characteristics by incrementally decreasing the levels of the objectionable material permitted in shipments of grade number 3 or better wheat, corn, barley, sorghum and soybeans.

(ii) Following the phase-in period referred to in clause (i)(III), subsequent revision of cleanliness requirements shall be conducted consistent with the schedule of the Secretary for reviewing grain standards.

(C) If the Secretary determines to establish requirements for cleanliness characteristics under this section, the Secretary shall ensure that such requirements are fully implemented not later than 6 years after November 28, 1990.
